Health and Safety is of paramount importance at The Acorns School

- If your child's behaviour impacts on the health and safety of any other individual in the school building then the likely consequences are restrictions to participation in school campus-based programmes and activities, or exclusion from school either fixed term or permanent.
- If staff become aware of and need to become involved in situations where a child may be at risk of hurting themselves or others, or if the behaviour of a child seriously disrupts good order in the school or causes damage to property, staff may need to take steps to intervene physically. In such circumstances, staff will follow the school's policy for dealing with such situations.

For further information please refer to our Behaviour policy. Any Parent/Carer wishing to discuss this further, or view the policy, may do so on request.
