

English lesson 2 LO: To plan ideas

Task 1

Use the information you have found out to extend your notes into sentences. Use these headings to help you. (Just like when we have boxed up our ideas in class)

What do they eat?	Where do they live?
What do they look like?	Some interesting facts?

Task 2

Can you add any of your own knowledge to your information to add extra detail. Maybe ask someone in your family what they know about the animal.
