

RECOGNISING
PLANTS

Vocabulary

Plant: A living thing that covers much of the land on our planet. They grow in the ground or in water. **Wild Plant:** Grow in the wild without having been planted by a human. **Garden Plant:** A plant that has been planted by a human. **Evergreen:** A plant that has green leaves that stay on it throughout the year. **Deciduous:** A plant that drops and regrows its leaves each year. **Fruit:** The part of a plant that has seeds and flesh. **Underground:** Beneath the earth's surface.
