

Y1 Science – Recognising Plants

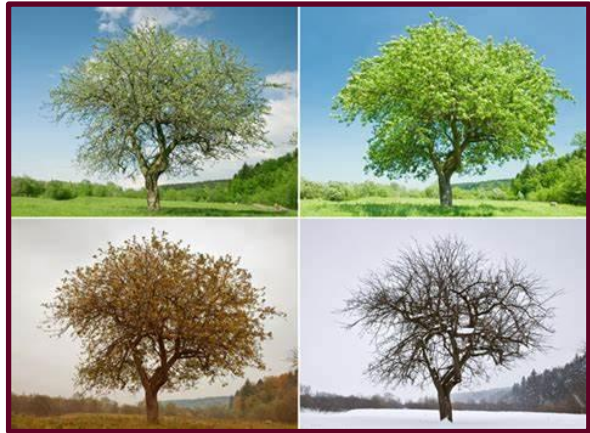

Plants

Evergreen

Deciduous

Vocabulary	
Plant	A plant is a living thing that covers much of the land on our planet. They grow in the ground or in water.
Wild plant	Wild plants grow in the wild without being planted by a human.
Garden plant	A plant that has been planted by a human.
Evergreen	A plant that has green leaves that stay on it throughout the year.
Deciduous	A plant that drops and then regrows its leaves each year.
Fruit	The part of a plant that has seeds and flesh, such as an apple or strawberry.
Vegetables	A plant or part of a plant, such as carrots, beans, or lettuce that can be used for food.
Underground	Beneath the earth's surface.

Parts of Plants
