Year 3 Maths – Lesson One

LO – To add 3 digit numbers.

Use the column method we have been using in our lessons.

	H	T	U
	3	7	7
+	4	1	5
	7	9	2
		1	

STEP ONE

7 ones plus 5 ones, equal 12 ones.

Exchange 10 ones for a 10 rod.

STEP THREE
Total how many hundreds you have altogether.

STEP TWO
Total how many 10's you have. Make sure you include the 10 ones you exchanged in STEP ONE.

hundreds	tens	ones
+		

377 + 415 = 792

Now you have a try, complete as many as you can in 25 minutes. Set out your calculations just like the example on the previous slide.

1. 478 + 318	7. 478 + 284	13. 876 + 572
2. 539 + 427	8. 363 + 249	14. 738 + 427
3. 447 + 236	9. 558 + 375	15. 886 + 485
4. 683 + 234	10. 638 + 297	16. 945 + 478
5. 761 + 152	11. 546 + 374	17. 846 + 354
6. 572 + 334	12. 379 + 426	18. 675 + 486
