Year 3 Maths – Lesson Three   LO – To add and subtract – word problems.

This week we have looked at our methods for addition and subtraction. Today you will use these methods to solve some word problems.

H	T	U
3	7	7
+ 4	1	5
7	9	2
	1	

H	T	U
6	7̶8̶	11
- 4	5	7
2	2	4

TRY THESE THREE FIRST

1. If you have 148 sweets and 25 are eaten, how many sweets would you have left?

2. If you have £155 and your granny gives you an extra £35 for your birthday, how much money would you have altogether?

3. If a baker bakes 212 iced buns and 98 of them are bought, how many will the baker have left?

Year 3 Maths – Lesson Three

4. If 445 passengers board a plane and 123 of them are children, how many passengers are adults?

5. If there are 260 children in a school and 42 of them are out on a school trip, how many children would be left in school that day?

6. If it is 550 miles from London to Glasgow and you have already driven 235 miles, how many miles would you have left to travel?

7. If a gardener plants 206 daffodil bulbs and 176 tulip bulbs, how many bulbs will the gardener have planted altogether?

8. If a cinema has 328 seats and 276 people buy tickets to see a film, how many seats would be available?

9. If Sam saves £245 and Zain saves £318, how much would they have altogether?

10. If 324 people visit a farm on Saturday and 239 visit on Sunday, how many people in total will have visited the farm over that weekend?
