HOME LEARNING YEAR 4 AUTUMN 2 WHY ARE RULES IMPORTANT?

As part of our work on 'Why are rules important?' you are required to complete at least 4 pieces of home learning over the half term. You can select any activities from the list below or come up with your own ideas to suggest to your teacher. Please record any home learning on paper and we will stick into your scrapbook in school. All work to be in school by Monday 14th December 2020 or email it: Mr Whalley: <u>stevenwhalley@blessedsacrament.lancs.sch.uk</u> Mr Readey: <u>chrisreadey@blessedsacrament.lancs.sch.uk</u>

English	Write a letter Write a letter to our MP, Sir Mark Hendrick, describing what we do in school to help to beat Covid. Start with our staggered starts, washing hands and using hand gel, staying in your bubble, play time, lunch time, using the toilet. Tell him about the things you like about the changes and the things that you miss because of the changes.	<u>Create an explanation text for a kitchen vacuum</u> <u>cleaner, washing machine or toaster</u> Your explanation of how the appliance works can be as imaginative as you like. Make sure to inform and entertain and include subheadings, pictures/diagrams and technical vocabulary.	<u>Just write</u> Sit down with a pencil and piece of paper. Close your eyes for two minutes and without moving listen to all the sounds that you can hear. Open your eyes and describe all the sounds that you heard – the tumble of the washing machine, the chattering of the television, the roar of a car engine. Take a break, then repeat.
Maths	<u>Number of the term</u> Spend 10 minutes to complete as many of the challenges for our number of the term on the back of this sheet. How many can you do? Take a break. Repeat two more times.	<u>Times table challenge</u> Write out the 3x, 6x and 9x tables. Now write them out again start with the 3x table and see how far you can get in 1 minute. Repeat for the 6x table and finally the 9x table. Did you get them all: 0x3 to 12x3, 0x6 to 12x6 and 0x9 to 12x9?	<u>As time goes by</u> Choose on day over the next few weekends (Saturday or Sunday) and keep a diary of all the things that you do. Start with when you wake up, wash and brush your teeth, eat breakfast, watch TV, go out, etc. Write the time that you start each activity and the time that you finish. What did you spend most time doing?
Торіс	Get creative Make your own cereal box guitar, straw pan pipes or tin can drums. This website should give you lots of ideas for making sound travel. <u>https://takeitaway.org.uk/diy-musical-</u> <u>instruments/</u>	<u>Something Spanish?</u> Teach a sibling, parent or carer how to say hello and how are you in Spanish – record conversation on paper.	The oldest building near to your home Next time that you go out for a walk with an adult take a photograph of the oldest building that you see. What can you find out about the building. When was it built, what was it used for, what is it used for now?
Working Together	Search your home With a grown up, search around your home for three of the oldest things that you can find. Talk about how old you think each item is and where it came from.	<u>Something soupy</u> With a grown up, make some soup and let it cool in a cup or mug. Sip your soup. Next, together, go outside and sip your mug of soup. Do you think it tastes nicer outside?	<u>Where's the church?</u> With a grown up, go for a walk to your nearest catholic church and take a picture of yourself standing in front of it. Can you find out when it was built?

HOME LEARNING YEAR 4 AUTUMN 2 WHY ARE RULES IMPORTANT?

Find 100 more	Write the value of each digit	Divide by 10	Find 0.1 less	Round it to the nearest 10
Double it	Find 1000 less	This week's number is	Halve it	Reverse the digits to make another number then find the difference between them
Round it to the nearest 100	Find 10 more	Reverse the digits to make another number then add them together	Find three quarters	How many more to make 10,000?
