

MISSION  
THIRTEEN

# Endangered animals

Learn all about endangered animals with this fact-filled board game. Better start working on your best ROAR.

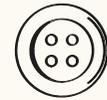

# How to get ready:

1. Cut out the two pages for the board and stick them together onto some cardboard. This will help it last through lots of games.

2. Cut out your dice and fact cards. See page 4. Place the fact cards face down by the board.

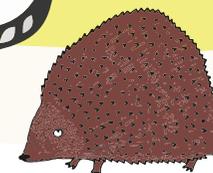

3. Find a different counter for each player. These can be paperclips, bottle tops, coins or buttons.

# How to play:

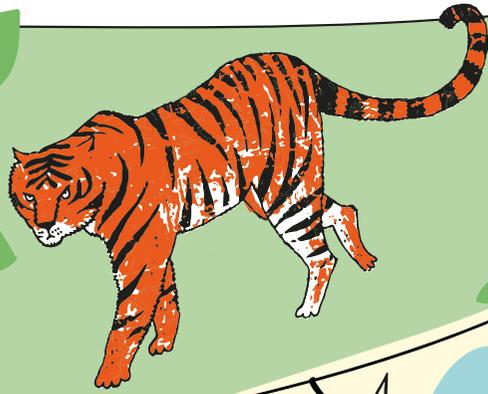

1. Deal an animal fact card to each player.
2. The player with the animal with the longest name goes first and rolls the dice.
3. Move that many steps along. The player to the left goes next.
4. If you land on an obstacle, you must check your animal card and follow the instructions.
5. The first player to land exactly on the final square wins.

Fancy another game? Just shuffle the animal fact cards and start again.

# ENDANGERED ANIMALS board game

START

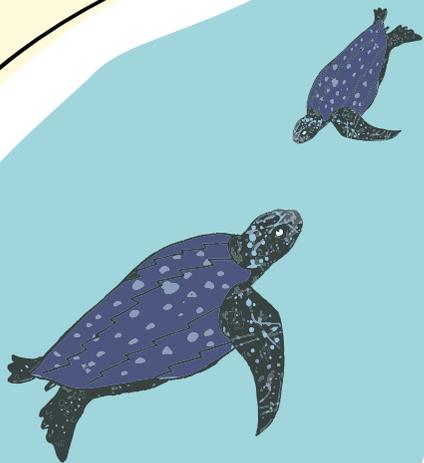

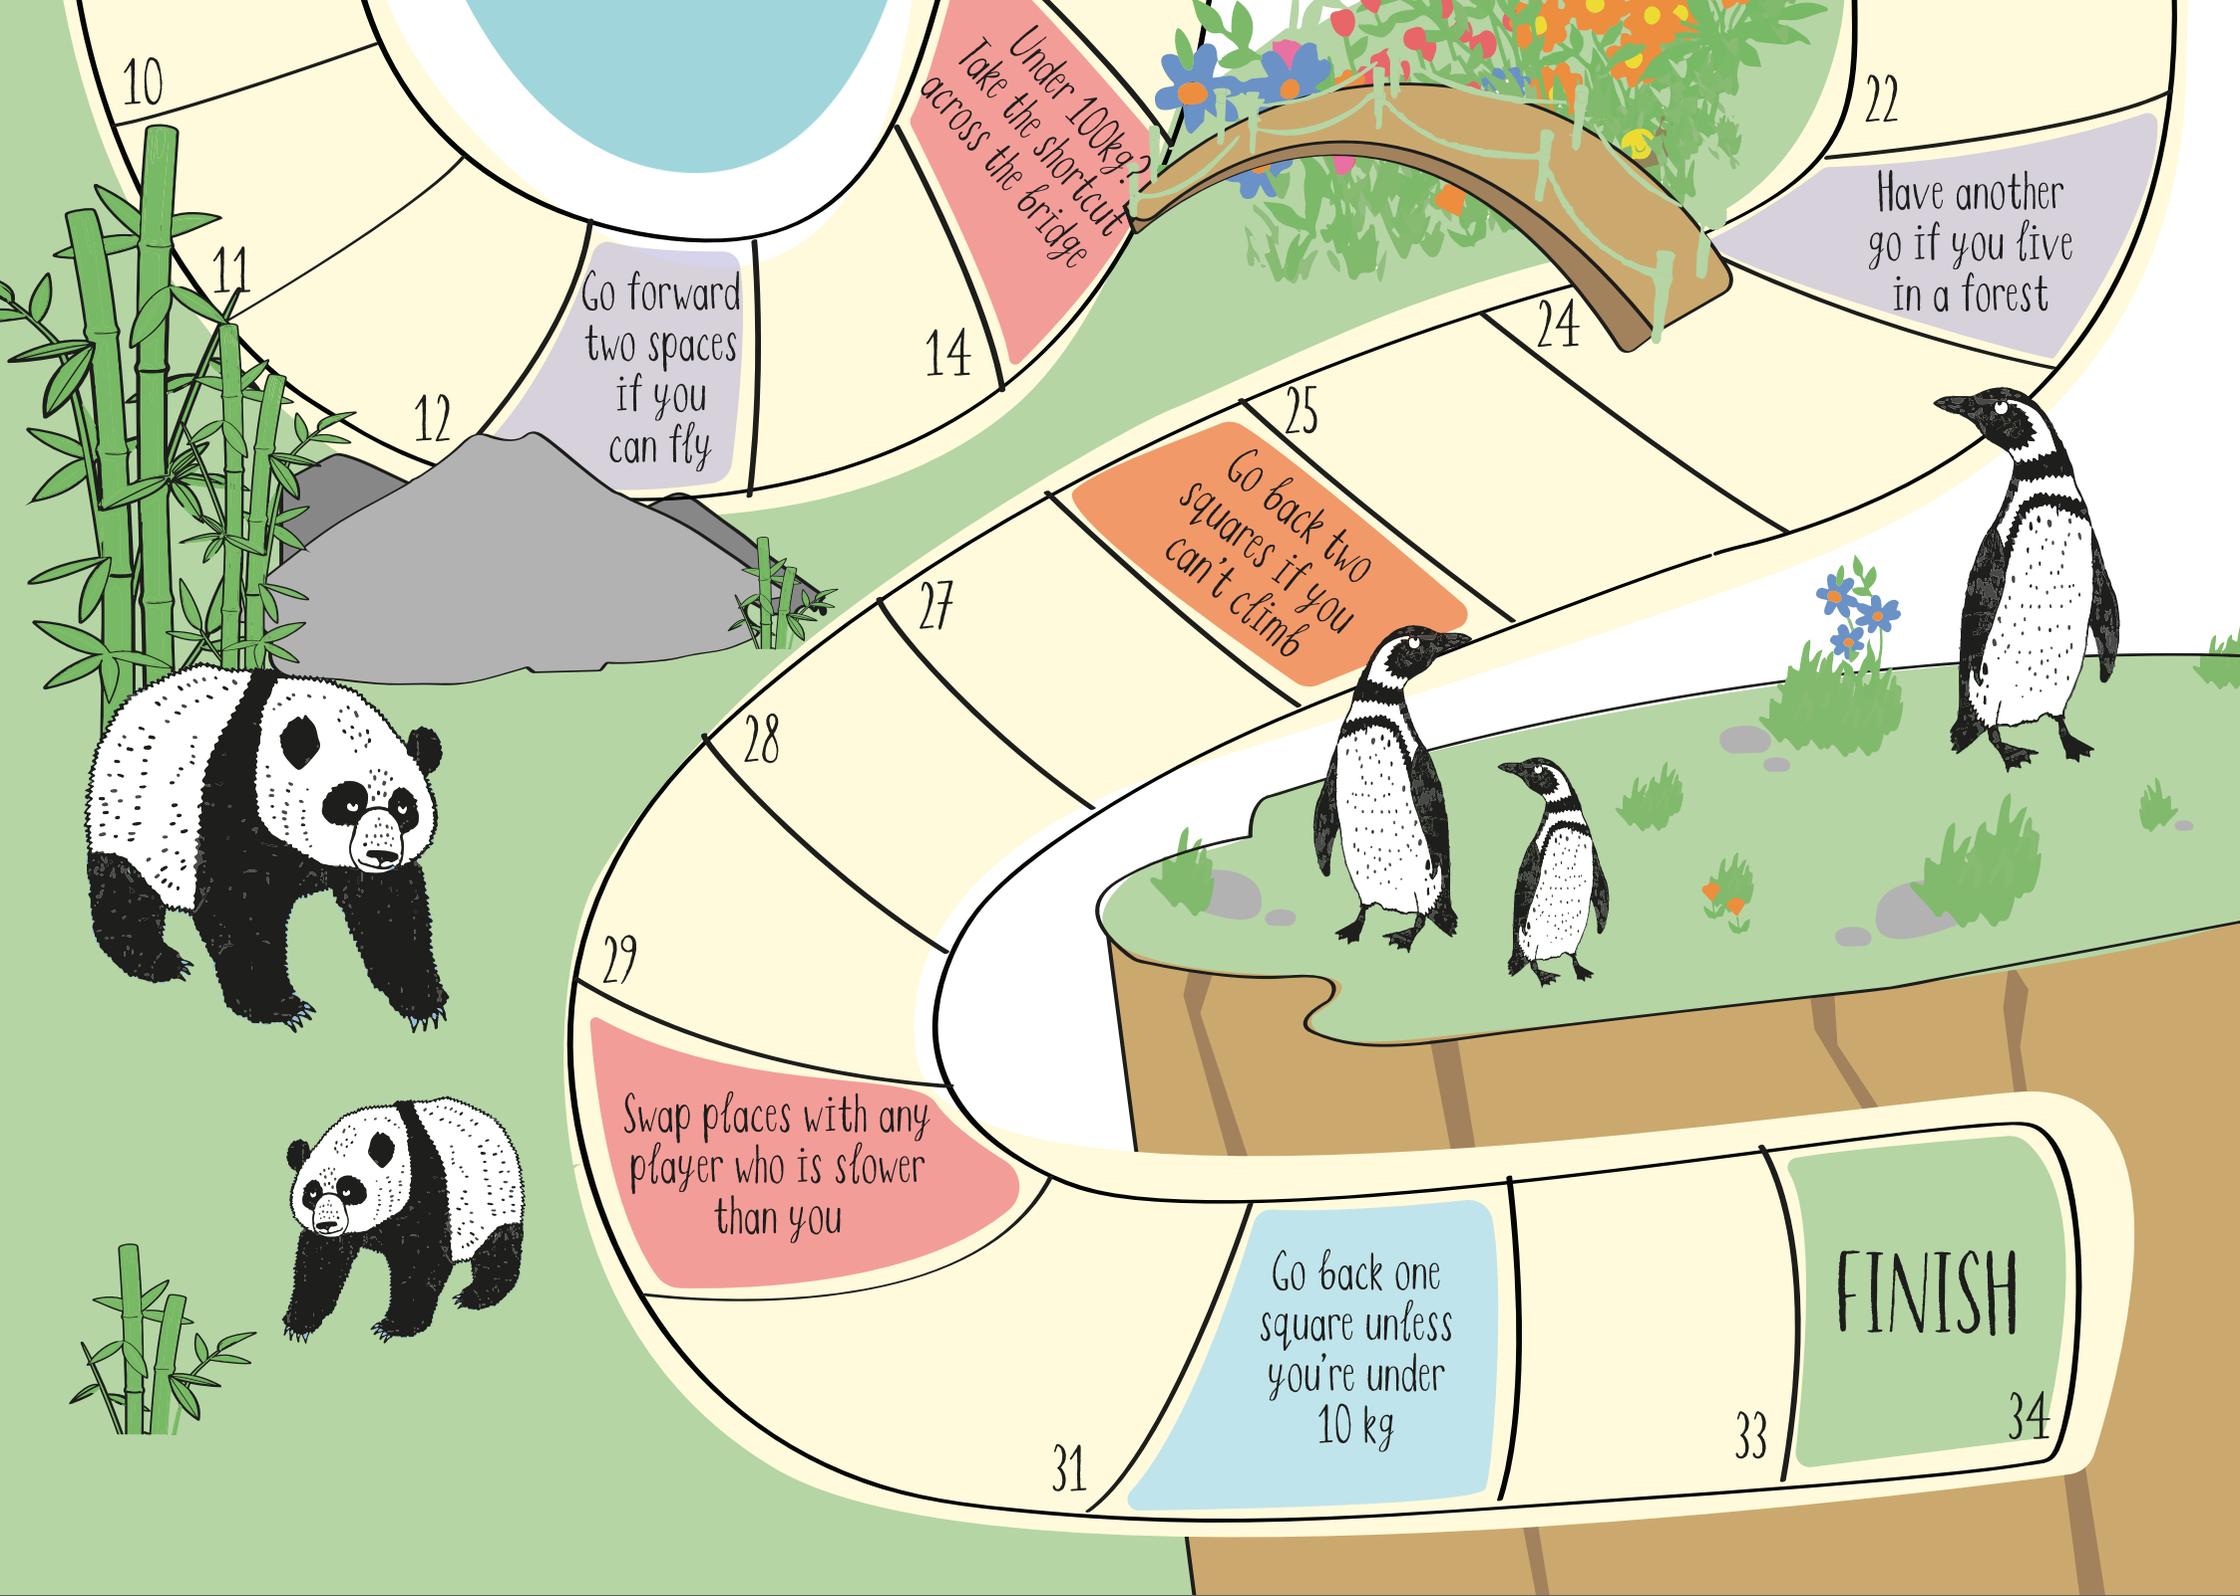

There's water ahead.  
Miss a go if  
you can't swim

Go forward one  
space if you're  
faster than  
20 mph

Skip a go unless  
you're the fastest  
animal

Time for a rest? Skip  
a go if you're the  
heaviest animal

Under 100kg?  
Take the shortcut  
across the bridge

Go forward  
two spaces  
if you can  
fly

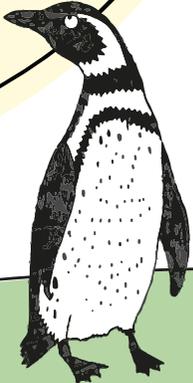

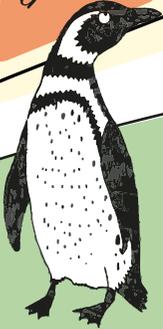

Go back two  
squares if you  
can't climb

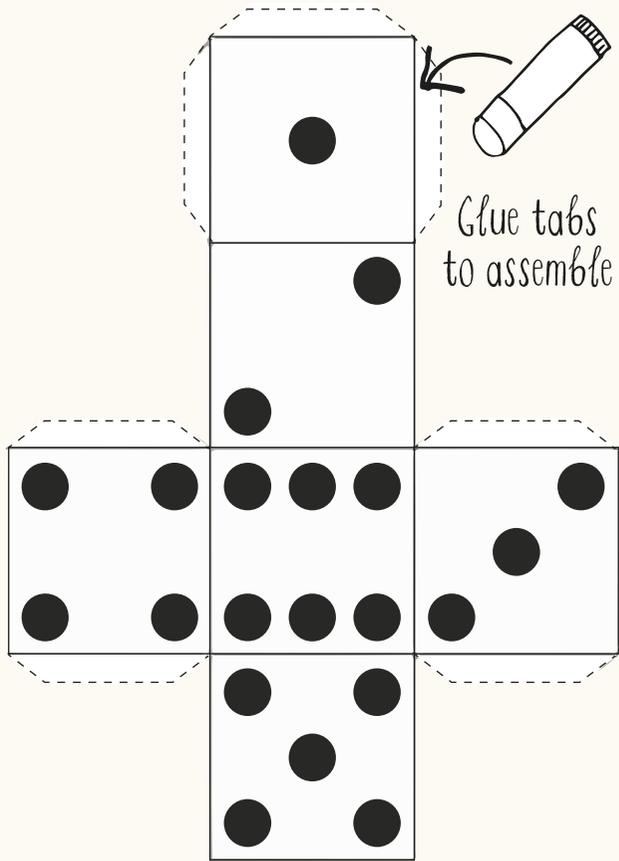

Have another  
go if you live  
in a forest

Swap places with any  
player who is slower  
than you

Go back one  
square unless  
you're under  
10 kg

FINISH

Glue tabs to assemble

Cut out your dice and animal fact cards

**G** IANT PANDA

**Habitat:** Bamboo forests  
**Top speed:** 20 mph  
**Average weight:** 130 kg  
**Secret skill:** A quick tree-climber and swimmer

**T** IGER

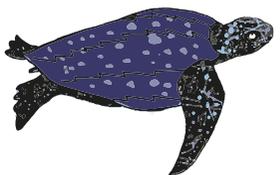

**Habitat:** Rain forests and grasslands  
**Top speed:** 40 mph  
**Average weight:** 180 kg  
**Secret skill:** An excellent swimmer

TURTLE**

Bluefin tuna have retractable fins to make them super speedy

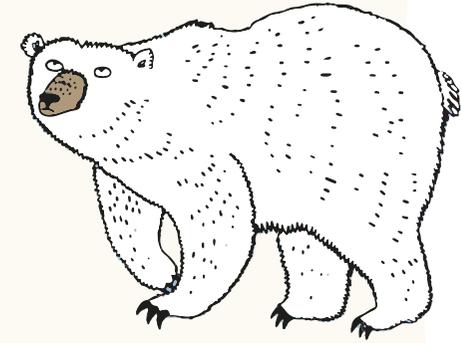

**BLUEFIN TUNA**

**GIANT PANDA**

A polar bear's fur is transparent and reflects light to look white

**POLAR  
BEAR**

## ENDANGERED ANIMALS

Animals which are endangered only have a small number left in the wild and are at risk of dying out.

Many countries are working hard to protect these species and have created wildlife reserves where these animals and their homes are protected.

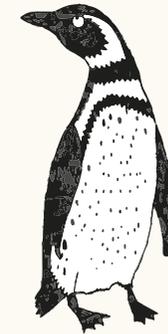

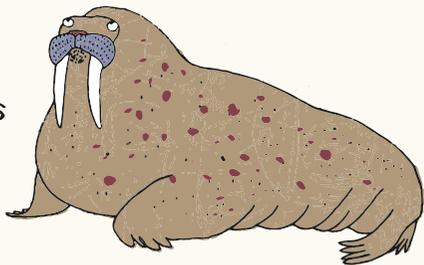

Conservation (protecting animals and plants) is important to take care of our world.

**MONARCH  
BUTTERFLY**

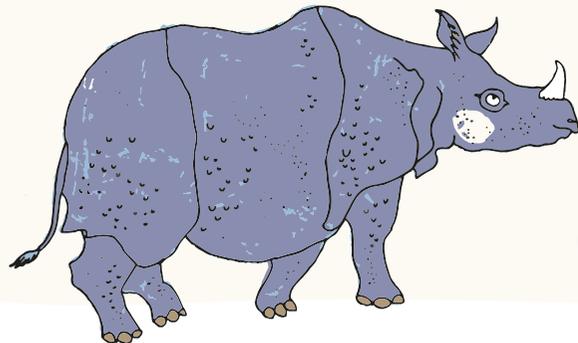

Walrus use their tusks to lift themselves onto the sea ice
