

CBC Curriculum Intent

Here at CBC, we are committed to creating an inclusive learning environment where all students, regardless of their starting point, can excel and reach their full potential, achieving recognized qualifications and exceeding their own expectations

Maths	English	Biology	P4C
<p>Our Maths curriculum strives to empower all students with strong mathematical reasoning and problem-solving skills. This will equip them with the essential tools to navigate everyday life, succeed in future careers, and thrive academically in their post 16 sector. We foster deep understanding of mathematical concepts and numerical skills, enabling students to confidently select the most effective strategies to solve problems. We believe that by cultivating mathematical fluency, we are preparing our students for diverse personal and professional pathways.</p>	<p>Our English Language curriculum fosters a deep understanding of writing, equipping pupils with strong foundational skills and the resilience to produce extended pieces of work. The program emphasizes both formal and imaginative writing, including academic essays and creative narratives. Students will learn to adapt their writing style for diverse audiences and purposes across various contexts. This necessitates a continuously expanding vocabulary and a strong grasp of grammatical concepts. Furthermore, we cultivate a love of literature by encouraging the exploration of a wide range of texts</p>	<p>Our Biology curriculum immerses students in the fascinating world of living organisms. Through in-depth exploration of core concepts like cell biology, biodiversity, key processes (such as respiration and photosynthesis), genetics, and ecology, students develop a strong foundation in the fundamental principles that govern life.</p>	<p>Our Philosophy for Children curriculum fosters critical thinking, communication, and ethical reasoning in all students. Through engaging philosophical discussions, students learn to question assumptions, explore diverse perspectives, and construct reasoned arguments. P4C cultivates a love of learning, encourages intellectual curiosity, and empowers students to become independent thinkers and responsible citizens who can navigate the complexities of the modern world with confidence and integrity.</p>
Business	RSE	Art	Music
<p>Our Business curriculum empowers young people with the knowledge and skills essential for success in the modern economy. Pupils gain a deep understanding of how businesses operate, from product development and marketing to financial management and the role of technology. They develop crucial skills such as critical thinking, problem-solving, communication, and teamwork – all highly valued in the</p>	<p>Our Relationships and Sex Education (RSE) curriculum aims to provide all students with the knowledge, skills, and values necessary to build healthy, respectful, and fulfilling relationships. We believe that comprehensive RSE is essential for students' emotional, social, and physical well-being. The curriculum is designed to instill core values such as respect, tolerance, and responsibility. This includes fostering a sense of community, upholding British Values,</p>	<p>The intent of our art curriculum is to foster creativity, critical thinking, and a lifelong appreciation for visual expression. We aim to provide students with a diverse range of experiences in art and design, including drawing, painting, sculpture, printmaking, photography, digital art, and textiles. Through engaging projects and explorations, students will develop technical skills, experiment with different media and techniques, and learn to express their own unique ideas and</p>	<p>Our Music curriculum fosters individual creativity and encourages students to express themselves freely through a diverse range of musical experiences. The curriculum aims to develop a deep understanding of music and develops industry-relevant skills while equipping students with the necessary knowledge to pursue their musical passions, whether professionally or as a lifelong pursuit.</p>

<p>workplace. Through engaging learning experiences, students explore the impact of businesses on society and the world around them. They learn about ethical business practices, sustainability, and the importance of innovation. This knowledge equips them to become responsible and informed citizens in a globalized and digital economy.</p>	<p>and valuing the diverse faiths and beliefs within our society.</p>	<p>perspectives. Our curriculum emphasizes the importance of art history, cultural contexts, and the role of art in society, encouraging students to become informed and discerning viewers and creators.</p>
<p>HCS</p>	<p>Our Home Cooking Skills curriculum is designed to equip students with essential culinary knowledge and practical abilities. It encompasses a range of topics, including basic knife skills, essential cooking techniques such as sautéing, roasting, and baking, and the principles of healthy eating, through which pupils learn to plan and prepare balanced meals, understand food safety and hygiene practices, and develop an appreciation for diverse cuisines. Our curriculum fosters creativity and encourages experimentation in the kitchen, allowing pupils to explore their own culinary interests and develop a lifelong love of cooking. This curriculum is designed to be engaging and interactive, with a focus on hands-on learning and real-world application. Opportunities for students to work independently and collaboratively, to develop their problem-solving skills, and to apply their knowledge to real-life situations are crucial.</p>
