

Welcome to Term 6

Welcome back for the final term of year 2!

We have a final term packed full of exciting experiences to finish off a great year!

SATs

We will be completing the KS1 SATs papers across week 1 and 2 of this term. It is really important that, unless your child is unwell, they are in school and on time ready for a settled start to the day. As previously shared, they will be completed in small groups and in a relaxed way.

We are able to share the children's scaled scores with you, at the end of the term, alongside their end of year reports.

In term 6, we will be focusing our learning around another two key texts: 'The Adventures of Egg Box Dragon' and Professor Puffendorf's Secret Potions'.

Within our writing this term, we shall be producing a range of different outcomes to enable us to practice and consolidate all of our Year 2 writing skills. We will be innovating a section of a story and we will also be writing a recipe and instructions to make a magic potion.

In Maths, we will be utilising the term to recap, revisit and consolidate previously taught learning from throughout the year. We will be exploring objectives that the children would benefit from more exposure and practice of to help with their transition to the year 3 maths curriculum.

Here is some of our broader curriculum learning that we are looking forward to in term 6:

DT – we will be exploring materials and structures and making a car port out of cardboard.

RE – we will be learning about the Hajj and the importance of this for Muslims

History – we will be learning about what life was like as a Victorian child and this will be supported by our trip to Sevington school.

Computing – we will be using Purple Mash to create a poster

Thank you for your continued support.

Meet the team

Please email the class teacher if there is anything you wish to discuss
