Why?

“My child’s behaviour is getting out of hand”

Children don’t come with a handbook and each child can present a range of challenges. This can affect their ability to learn. Family Support Workers can offer practical advice and guidance on a wide range of these challenges.

Where?

We can meet with you in school, at home or in your community.

“My child is going up to Year 7 and I don’t think she’ll cope”

How?

We work with schools to help support families by:

- Exploring any challenges you may be having in both home and school.
- Being a link between you and your school.
- Helping you work through financial or housing problems.
- Linking you to other agencies who may be able to help you.

“I’m really worried about my daughter’s schooling this year. Her self-esteem is a problem”
