Year 5 Learning Journey Summer 2 – Geography

Isle of Purbeck - Swanage

Key Vocabulary

Sketch Map

A map created from observation or memory without correct scaling.

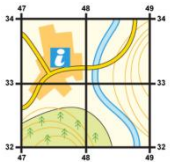

Contour Lines

Shows high and low areas of land.

Four Figure Grid Reference

A way to locate a square on the map, using coordinates.

Compass Directions

North, East, South, West, North East, North West, South East, South West

Land Use

How an area of land is used.

Ordnance Survey (OS) Map

A detailed map.

Retrieval

Describe location using a compass. Make a detailed map of a known area using standard OS symbols. Understand how land is used in different places. Understand how land has changed overtime in Swanage.

Lesson 1

I know that I can create instructions using eight-point compass directions (N, E, S, W, NE, NW, SE, SW.)

Lesson 2 - Trip to Corfe Castle

I can represent Corfe by making a sketch map of Corfe Castle and the surrounding landmarks at the location.

I can conduct a 'Land Use Survey' or an 'Environmental Quality Survey.'

Lesson 3

I can record my findings.

Lesson 4

I can compare maps and recognise how landscapes and land use have changed over time, using my evidence.

Lesson 5

I know that I can use a four-figure grid reference to help build knowledge of a specific area.

I know how to make a more detailed map of Corfe using standard OS symbols as a key.

.

Lesson 6

I know that height and slope can be shown using contour lines.

I know how to make a more detailed map of Corfe using standard OS symbols as a key.
