

Destinations data Summer 2024

The Khalsa Academy continues to support students from the moment they arrive to the day of their results and beyond.

Summer 2024 results are a testament to the hard work and dedication from staff and students. Over 97% have continued on to A level studies or other college courses and those who decided not to have pursued their own career path with an apprenticeship or successful entrance into the armed forces.

We are incredibly pleased with our 0% NEET score this year.

Student destinations by number
