Why this Why Now	Why this Why Now	Why this Why Now	Why this Why Now	Why this Why Now	Why this Why Now
• People and the biosphere builds on prior knowledge of Using earths resources covered at KS3 and delves deeper into environmental geography. In addition students will know more and remember more about physical processes and be able to give place based examples to back up statements.	• People and the biosphere builds on prior knowledge of Using earths resources covered at KS3 and delves deeper into environmental geography. In addition students will know more and remember more about physical processes and be able to give place based examples to back up statements.	• The UK's evolving human geography requires prior knowledge of population, employment types and economics covered at KS3 and delves deeper into human geography which is required to allow students to understand how contemporary geographical issues affect people in the UK. In addition students will know more and remember more about human processes and be able to give place based examples to back up statements. Students will test this knowledge in the field by conducting an environmental quality survey in Wolverhampton.
