Dear Parents and Carers,

As part of the Government's careers strategy for schools and colleges, Stockport Council is committed to ensuring every young person receives high-quality career guidance to make informed decisions about their future.

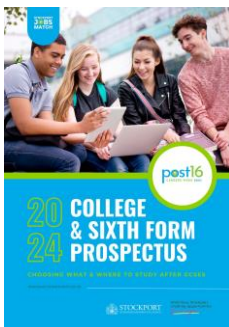

This year we are providing schools and colleges with a range of live events and resources for **Post-16 Careers Week 2024**. This will take place Monday 14th – Friday 18th October and will feature sixth forms, colleges, training providers, universities, employers and support services to help students, parents and carers understand the choices available at 16+ and 18+.

Please see the full details of the events and resources available below for students to access directly, as well as parents and carers, teachers and careers advisors. We strongly encourage you to take advantage of these and to speak to your school or college to find out how they will be accessing the events and resources as part of their own curriculum and careers provision.

16+ Careers Week | Monday 14th – Friday 18th October 2024
