# Achievement

At TKS, you will often hear your teachers talk about your 'learning journey' and the key bits of 'essential knowledge' you will learn as you move through school.

When the moment comes for your teacher to stop more formally check what you have learned, we call these '**Assessment Milestones**'. They help you and your teacher to know that your learning is progressing in the right direction.

**Moving forward, you will be reminded when these are coming up in these messages.**

# Assessment and exams

As we approach the exam season, we recognise that this can be an important and sometimes challenging time for students and their families.

It is completely normal for young people to experience a mix of emotions, including pressure and uncertainty, as they prepare for assessments.

At school, we are continuing to support students both academically and pastorally, helping them to feel confident, prepared, and reassured. For Year 10, these assessments are an opportunity to gain valuable experience, while for Year 11, the focus is on approaching the final weeks with calm and confidence. Our priority is to ensure that every student feels supported, encouraged, and able to do their best.

If you have any concerns or feel your child would benefit from additional support, please do not hesitate to contact the school. We are here to help.

# Assessment and exams

## Example (Maths):

A rectangle has a length of 12 cm and a width of 5 cm. What is the area? (2 marks)

## Example Answer (simplified):

To find the area of a rectangle, we multiply the length by the width.

$$12 \times 5 = 60$$

So, the area is **60 cm<sup>2</sup>**.

Students are practising skills such as:

- Understanding key mathematical concepts
- Applying methods step by step
- Showing clear working out
- Checking their answers for accuracy

## Why are we sharing this?

We hope this gives a helpful insight into the kind of thinking and skills students are developing in lessons and preparing to use in their exams.

You can help at home by asking your child to explain how they solved a problem, checking their working, or encouraging them to practise basic skills such as times tables.

- Thursday 30th April

# Achievement: Year 11

## The Final Leg

From May onwards, Year 11 students will be supported to prepare for their exams via a mixture of timetabled lessons, Walking-Talking-Mocks (WTMs) and Masterclasses

Our Walking Talking Mock offer is based around a mixture of independent and guided practice to deliver a supportive but challenging rehearsal of their examinations by completing full papers in a guided way in circumstances which closely mirror the real thing.

Our masterclass offer is designed to allow for guided revision of key materials and is in place to ensure that students have the opportunity to revisit topics and areas of study with a subject specialist in the final days before their examinations.

All students are expected to be in school and in attendance for their published schedule. Following May Half term some periods of 'home study' will be introduced during which students can complete independent work in preparation for their exams.
