

We are pleased to confirm that our allergen and food intolerance policy has been formally approved by our primary authority, Luton Borough Council.

Across our secondary schools and colleges, we maintain comprehensive Food Intolerance Reports through our menu management system, Starchef. In addition, we provide manual allergen matrices when last-minute ingredient changes occur that are beyond our control.

To support students with allergies:

-  Catering teams are available to provide allergen information for all dishes served.
-  "Allergen Aware" signs are prominently displayed at each service counter to encourage open communication and ensure safety.

We are committed to creating a safe, legal and informed dining environment for all students.
