2.4. School Nurses

2.41. It is the policy of the School that the School Nurse is not, in the first instance, to be used in a First Aid capacity. However, they may be called upon in the immediate absence of a trained First Aider or to assist a First Aider in situations requiring another trained Professional for help and/or advice.

2.42. The School will continue to rely on the knowledge and experience of its trained First Aiders in order to administer appropriate treatment to injured persons in the first instance but retain the option of calling upon the services of the School Nurse, if felt appropriate, when they are on site. In emergency situations, the First Aider will still call for (or will instruct another member of staff to call) 999 and request that an Ambulance and Paramedics attend but can still be supported in the current situation by the School Nurse if required and appropriate.

2.43. Having firstly considered the option to consult with the School Nurse, where there is any doubt about the appropriate course of action, the First Aider, being the appointed person in charge, will still be expected to consult with the Health Service Helpline (NHS Direct 0845 4647) and in the case of Pupil injuries, with the Parents or Legal Guardians.

3. Record Keeping
