

Class 3:4 and Class 5:1 suggested activities – week 5:

Hi,

We hope you and your families continue to stay safe and well. Please remember to send over all the work you have been doing. This week please focus on the following.

1. **Pre-formal curriculum**

Please continue with the following task from last week. A lot of work is going on behind the scenes in relation to the pre-formal curriculum. In particular how that fits in with our PMLD learners. Lots of ideas are going around currently. For this next task we would like you to come up topic suggestions. We would like 3 topics per year, covering a 7 year plan. So 21 topics in total. With each topic, give a brief explanation as to why you feel this topic would be beneficial, any specific links it might have, and any learning ideas that could fit into that topic.

For example, you might choose the topic – COLD. This links with wintery seasonal weather and Christmas. Cold is a sense we all feel, therefore it is important to make some links to this sense. The sensory story Ice Age could a really good learning activity to take place for course of this topic.

2. **Sensory trail/walk**

Please design 2 sensory trails/walks. Please design one for the purpose of home learning, which our students can complete with parents at home. Please also design one that can be used within school to use with students when they return.

3. **Educare modules**

Please complete any relevant educare modules that would be beneficial in extending your own pedagogy.

Thank you.
