

Department Intent

Our intent is that the **Music** curriculum:

	<ul style="list-style-type: none"> • develops knowledge, understanding and skills needed to communicate effectively as musicians. • encourages an active engagement in the process of music study. • broadens musical experiences and interests. • promotes consideration for future academic study.
	<ul style="list-style-type: none"> • develops skills through the three distinct disciplines of performing, composing and appraising. • deepens awareness of a variety of instruments, styles and approaches to performing and composing. • encourages the development of appraisal skills to make evaluative and critical judgements about music. • encourages an understanding of contrasting genres, styles and traditions of music, and an awareness of musical chronology.
	<ul style="list-style-type: none"> • promotes engagement with and appreciation of diverse musical heritage, in order to promote personal, social, intellectual and cultural development. • develops effective and independent learners with enquiring minds. • encourage self-confidence and self-esteem through performing in front of an audience. • nurtures imagination and fosters creativity for a lifelong love and passion for all forms of music and music-making.
