Green Power

Dear Parents/Carers,

We are excited to share with you an innovative project planned for the next academic year here at Thrunscoe Primary and Nursery Academy. Starting this September, we will be embarking on an exhilarating journey with our upper Key Stage 2 children to design, build, and race a 'GreenPower' electric car.

GreenPower is a charitable organisation dedicated to inspiring young people worldwide to excel in Science, Technology, Engineering, and Maths (STEM).

As an ongoing project, our younger children will also benefit from participating in the future, ensuring that this initiative continues to enrich our curriculum for years to come.

To make this project a reality, we are reaching out to local businesses and sponsors for support. Initially, the costs are estimated at approximately £1800. In return for their sponsorship, which does not need to be the full amount, we will proudly display company stickers on our finished car, acknowledging their generous contribution.

This unique experience will allow us to teach the children a wide range of skills, from teamwork and problem-solving to practical knowledge about sustainable technologies in the green industry. It's a fantastic opportunity for our students to engage deeply with real-world applications of their learning.

Enclosed with this letter is an image of an existing car from Healing Primary Academy, providing a glimpse of what our students will be working towards. Currently, we will be the only two schools in our local area offering this experience. We look forward to joining them on race days and showcasing the talent and dedication of our students.

We thank you for your continued support and involvement in our school community. If you or anyone you know would like to contribute to this exciting initiative or learn more about our project, please do not hesitate to get in touch.

Yours sincerely

Mr S P Bate and Mr A Howard
