

SEN Support and Getting Extra Help – Awareness Session

Do you have concerns about your child's SEND? Are you just starting out on your child's SEND journey?

The Partnership for Inclusion of Neurodiversity in Schools (PINS) team have organised a training session, in conjunction with SENDIASS, which aims to raise awareness of the SEN support available within schools and academies with regard to the graduated approach. It is open to **all** parent carers in North East Lincolnshire whose children do not have an Educational Health Care Plan but do have (or may have) special educational needs.
