29th April 2026

Dear Parent/Carer,

Safety in the Sun

The summer is on its way and we are all looking forward to spending lots of time outside – both during the lessons and play times. We understand the importance of sun protection and want staff and pupils to enjoy the sun safely.

On very sunny days, children have access to shady areas, however, it is important that children bring their sun hats and a bottle of water in to school daily. **Please can children arrive in the morning with sun cream already applied so they are ready to be outside to play – this will offer them protection throughout the day.** The long-lasting protection types (offering 8 - 12 hour coverage) are recommended.

If your child is prone to burning and you feel they may need an additional application during the school day, please send in an FDA approved, labelled bottle of sun cream with your child's name on. Please be aware that this will have to be applied by your child outside during playtimes and lunchtimes, not in academy corridors as it is causing congestion. Staff will be present on the playground but it will ultimately be your child's responsibility to apply their own sun cream.

Yours sincerely,

Mr Bate
Headteacher
