

How to grow a plant

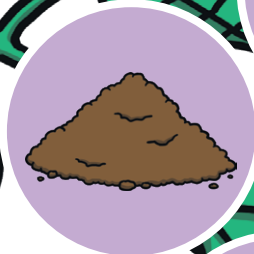

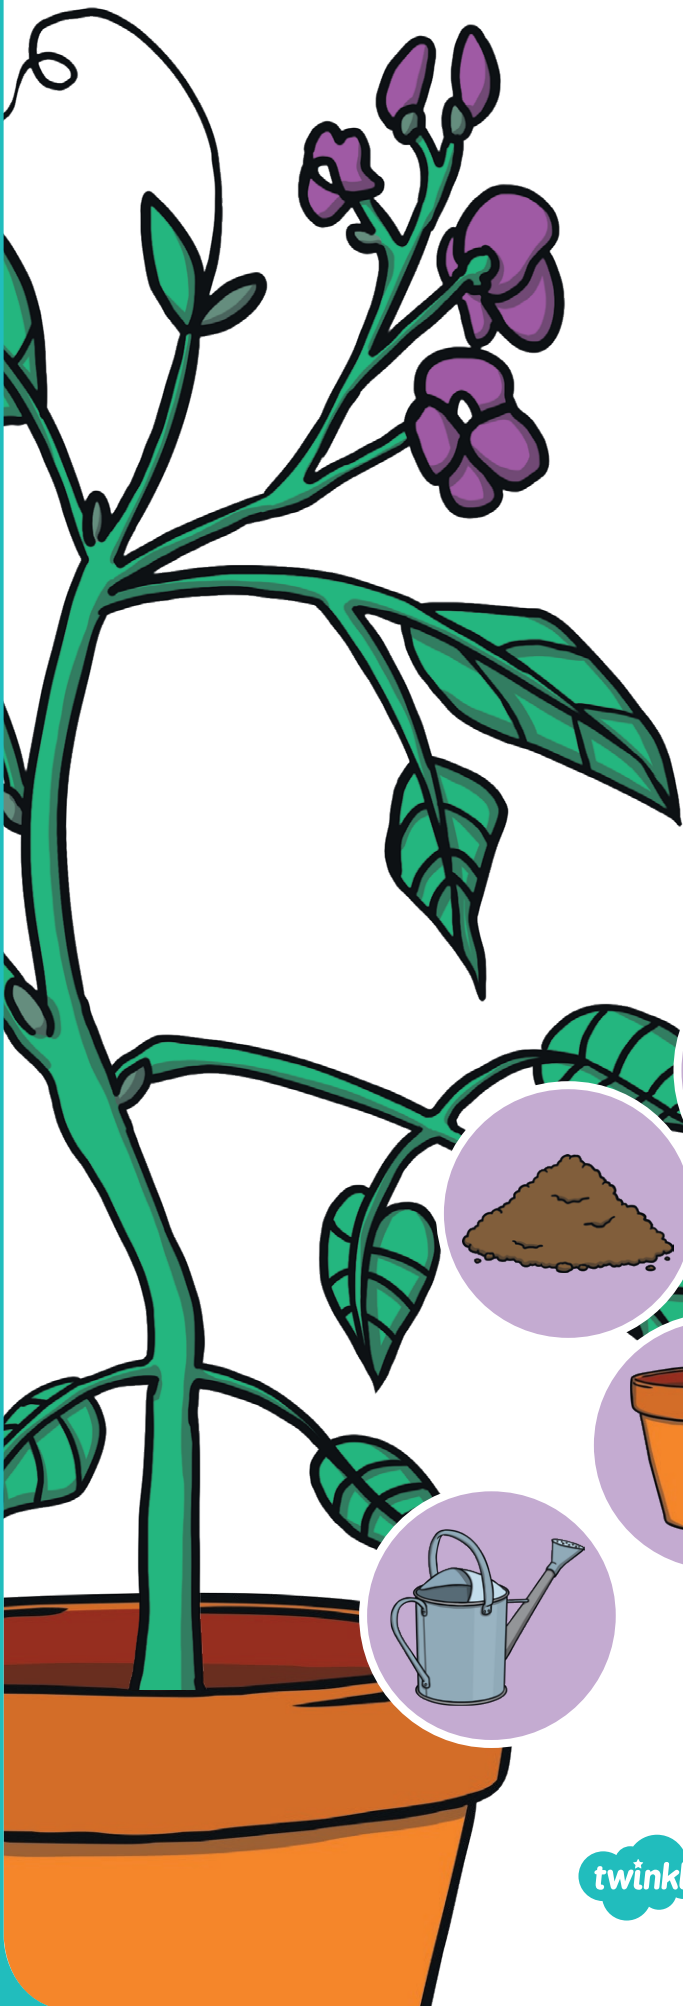

You will need:

Seeds

Soil

Plant Pot

Watering Can

1.

Fill half your plant pot with soil.

2.

Sprinkle your seeds onto the soil.

3.

**Pour more soil
over the seeds.**

4.

Use the watering can to dampen the soil.

5.

Set your plant pot by the window for sunlight.

6.

Water your seeds regularly.

7.

**Soon your plant
will start to grow.**
