

# Hen Life Cycle

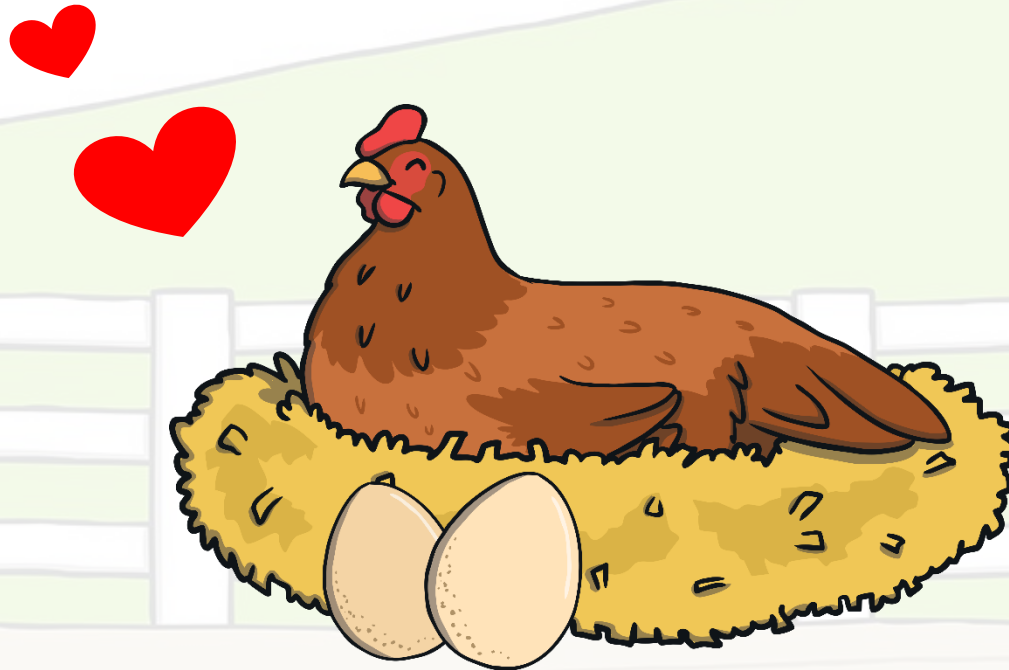

twinkl

The hen lays an egg.

The hen incubates the little egg by sitting on it and keeping it warm.

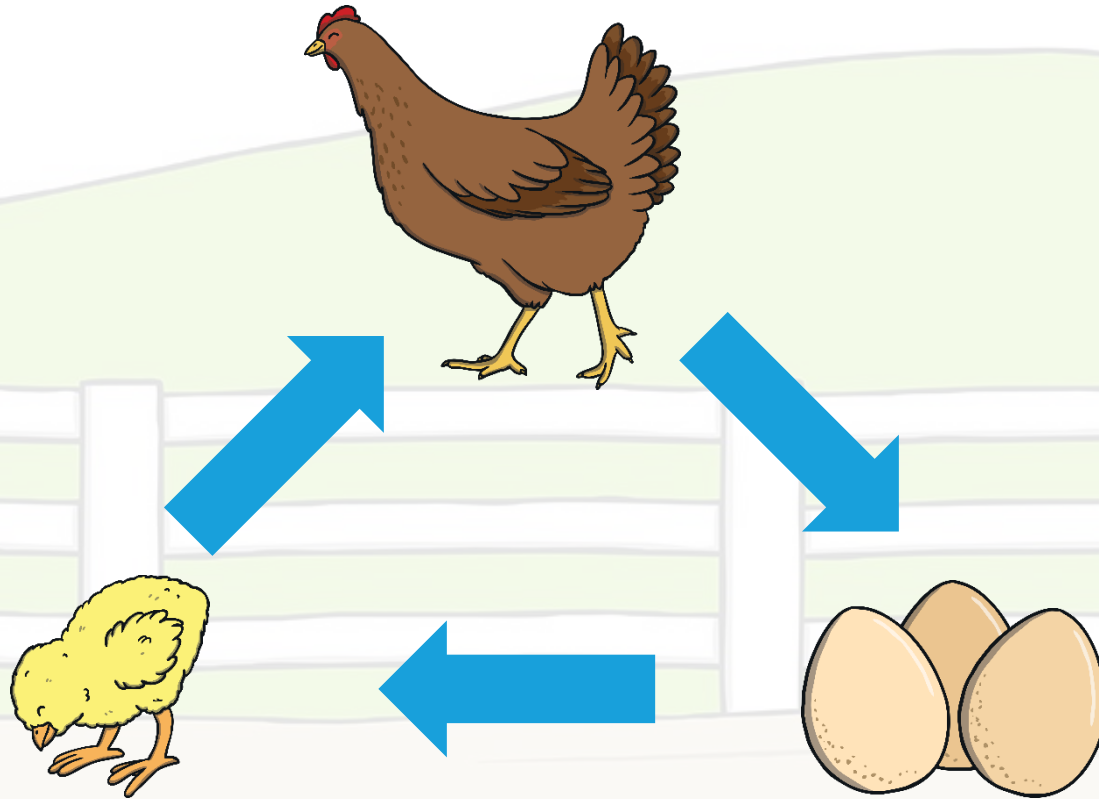

The incubation period for a chicken egg is about 20 days.

The chick will then grow into a chicken...

...and the cycle will start all over again!

# Some Interesting Facts

Chickens have dreams when they sleep, just like us!

Chickens have their own 'language' of over 30 chicken sounds.

Chickens have full colour vision.

Hens will fight to defend their young so remember that the next time someone calls you a 'chicken'.
