INDEPENDENT STUDY

## Independent **Study** at THS

Independent study is an integral part of learning in order for students to achieve the best possible outcomes.

---

Not only is it important for students to get used to working at home so that they are able to prepare for the study skills necessary for their exams, but also it is a key skill required to cope with professional demands in many careers and industries.

Independent learning will always link to the curriculum studied in school with opportunities to consolidate and practise learning. We believe that home study should not place an unnecessary burden on children or parents and carers.

In order to support this, KS3 independent learning will be linked to the key learning objectives in students' Knowledge Organisers so parents and carers have a clear overview of what is being practised.

At KS4 we expect students to become more independent in readiness for their GCSE exams and beyond. Therefore, they will have a suite of resources for subject-specific independent practice, past papers and revision guides alongside assignments set by their teacher.

**All Independent learning tasks will be set on Classcharts/Arbor by students' class teacher.**

# Home Learning Support

Here is a reminder about the resources that are on offer to you whilst learning at home.

Students are lucky enough to get above and beyond that of most schools and it's important these are taken advantage of for success.

**Key Stage 3:** Knowledge Organisers – broken down per each half term and contain content and questions to work from home on.

Homework Schedule – to support time management at home and a guide for teachers so work issuing is not given all in one go.

**Key Stage 4:** Exam Board Study – the list on the next page offers guidance of the vast range of online resources such as past papers etc. This should be used as a guide.

Revision Guides – ALL students have been given FREE guides which they should have at home. There are no excuses for loss

# Homework Timetable

## Engagement with Independent Learning

Pupils will be expected to complete independent learning on time and rewarded with green points for this. Independent learning will be monitored by the class teacher in the first instance and pupils who repeatedly fail to complete homework will be asked to complete this during social times or after school and contact with parents will be made. Repeated failure to engage will lead to Head of Dept, Head of House and Senior Leader involvement.

Subject	Year 7, 8, 9	Year 10, 11
Maths, English and Science	Once per week	Once per week
Geography	Once per fortnight	Once per fortnight
History	Once per fortnight	Once per fortnight
MFL	Once per fortnight	Once per week
Personal Development	Once per half term	Once per fortnight
RE	Once per half term	Once per fortnight
ICT	Once per half term	Once per fortnight
Music	Once per half term	Once per fortnight
Art	Once per half term	Once per fortnight
Drama	Once per half term	Once per fortnight
Technology	Once per half term	Once per fortnight
PE	Once per half term	Once per fortnight

**All Independent learning tasks will be set on Classcharts/ Arbor by students' class teacher.**

# Online links & Software

Each subject area uses additional software to support learning - Below are links to these resources.

# Wellbeing Support

It is so important to look after yourself. Check out some of the Apps below to help manage your time and build in time to relax.

## HeadSpace

Guided Meditations and Mindfulness takes a calm, relaxed approach to bringing calm relaxation into the lives of adults and kids. The Headspace app, aims to keep children “calm and focused” through short meditation exercises. The app will help children fall asleep and wake up peacefully. It uses common meditation techniques like becoming aware of environmental sounds, breath awareness, breath counting, and more. Children can learn the basics of meditation and mindfulness. Children can follow the instructions and are reminded by the app to meditate each day. They can develop the habit of making time for personal growth and self-reflection in different situations, such as bedtime and waking up. It is also being used by mental health professionals and licensed therapists in medical sector.

## Moodpath

Moodpath is an interactive depression and anxiety screening program. This app tracks psychological, emotional and physical health over a two-week period in order to generate a personalised mental health assessment that users can discuss with their doctor or counsellor. The app also contains an educational component to teach users about the psychology behind their mood, signs of depression, and psychotherapy. It's one of the best apps that help youth and young adults with mental health struggles that include CBT and wellness.

## Mindshift

MindShift app is based on to help young adults cope with anxiety, by acting as a portable coach that guides users through challenging situations. Designed in collaboration with Anxiety Canada, this app teaches users how to relax and helps them identify active steps to directly face and take charge of their anxiety. The app provides a variety of methods for young people to respond to anxiety including; developing their knowledge of anxiety and symptoms, engaging in relaxation tasks, evaluating their level of anxiety in particular situations, developing realistic thinking patterns and changing behaviour. Specific tools help users tackle issues such as improving their sleep quality, dealing with perfectionism, and handling conflict. These tools address everyday situations that contribute to increased levels of anxiety to help users change their overall relationship with anxiety. The goal is to help young people learn and practice anxiety coping skills.

## Smiling Mind

Smiling Mind is designed to help people pressure, stress, and challenges of daily life. This app has a fantastic section on Mindfulness in the Classroom. An especially good choice for the younger users out there, as it was created specifically with students in mind. Smiling Mind offers programs for a variety of age groups, including 7-9, 10-12, 13-15, 16-18 and adults. The app has an easy-to-use interface for keeping track of your progress over time, both in terms of how many sessions you complete and how your emotions change.
