

Intent Statement: “Our vision for MFL at Tottington High School is for all students to develop a passion for languages, to promote inquisitive, independent and resilient young linguists who appreciate other cultures and understand the benefits of learning a language. Languages allow businesses across the world to become multinational, as well as scientists to collaborate on new breakthroughs. Our languages curriculum enables students to develop their written and spoken language skills, as well as develop listening and reading skills. It allows pupils to develop a good knowledge of grammar and vocabulary, so that they can effectively communicate in the target language about a range of topics, which will help them in their future lives.”

MFL
