

SCIENCE

C4 Chemical Calculations

How can we quantify the chemicals in a reaction?

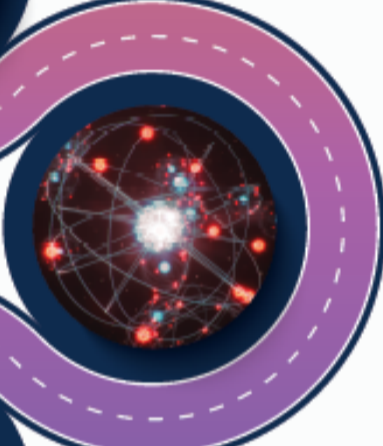

P4 Electric circuits

How is energy transferred through wires?

C3 Structure and bonding

How does the way atoms join together determine structure?

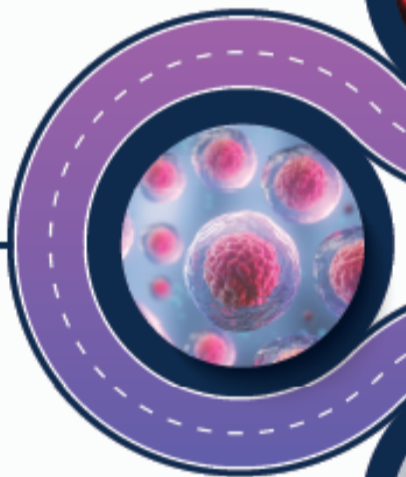

B4 Organising animals and plants?

How do we group living things to study them?

P2 Energy by heating

P3 Energy resources

How do we use energy to power the world?

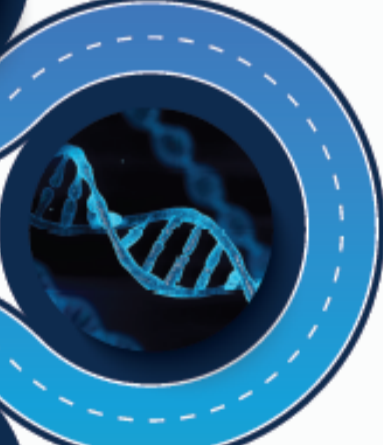

B3 Organisation and the digestive system

How do we use the food our body digests?

C2 Periodic Table

How are elements organised?

P1 Energy

How is energy stored and transferred?

C1 Atomic Structure

What are the smallest building blocks of the universe?

3.3/3.4 Energy

What happens to energy?

10.3/10.4 Genes

What is the impact of genes of future generations?

Genetics Project Unit

What is the link between Darwin and Watson and Crick?

Introductory skills unit

B1 Cells and Transport

B2 Cell Division

What processes happen in our cells?

YEAR 9
