Every child matters; every moment counts!

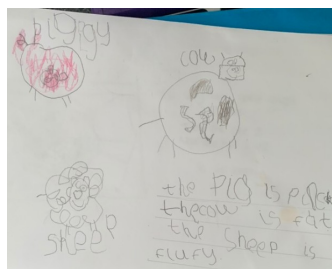

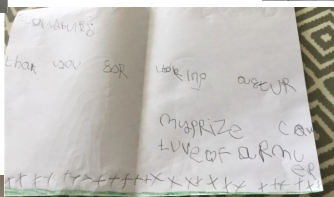

Friday 15th May 2020

Hi spiderboys and spidergirls,

What wonderful weavers you are! You have been very busy spiders making all sizes of webs this week and catching lots of flies. Some of your webs were so big, I'm surprised you could get out of your rooms! You have done some excellent Maths work on subtraction and doubling whilst practising some cool Spiderman moves. I am so glad you got to read *The Ladybird Heard* this week – it is one of my favourite books. I have seen how much some of you have enjoyed it and I have loved reading your speech bubbles. I'm sure the ladybird will love her cards from the farmer too. Some of you had a go at the cairn building challenge and made some truly impressive sculptures.

Next week in Maths is even more minibeasts with someone who is super long and super strong – I wonder who that could be? Our literacy is looking at traditional stories which we covered earlier in the year so they should be stories you already know. Maybe for your exercise you could run, run, as fast as you can. Keep posting your photos and videos on Tapestry.

Miss you, stay safe, stay happy, Mrs Alcock, Mr Lomax and Mrs McGowan.

Reception

Headteacher's Note:

I am sure that you are all aware that schools are now planning for the phased return of children in YR Y1 Y6. I must thank all the parents for their understanding when we have called you this week. All I can say at the moment is we will "START SMALL TO STAY SAFE". As soon as a final decision has been made I will inform you of the arrangements (before the end of next week).

The things that we do know are: -

Our summer half term starts on Tuesday 2nd June when we may start the phased re-opening of school to chosen year groups.

We will be able to split each year group into smaller, safe sized groups with the same teacher/TA.

We will still have Key worker groups 5 days a week.

We know that not all parents will feel it is safe to send their child to school.

Please contact us if you have any questions. Continue to stay safe and take care. Kind regards, Mrs Stinchon

Hello everyone!

What an exciting week we have had.

You have been learning about rabbits, playing coding games and even

creating fire-breathing dragons! I had

to hide behind my laptop a few times just to escape

them! My two favourite activities this week have been

the shops that you have set up and the list of things

that you are thankful for. These really did make me

think just how lucky we all are and how grown-up you

are to be able to think of all of these things at a time

when life is so different for us all.

Once again we are so impressed with how hard you are

all working. The standard of your work is so high and

we can tell that you are taking such care and pride in

everything that you complete. Just one more week to

go so please keep going!

Love from Mrs Beetham, Mrs Wiseman and

Mrs Nelson.

Year 1

Year 2

Hello, Year 2!

You have had another amazing week on Seesaw and have been working non-stop! I have really enjoyed seeing your English on Horrid Henry. My favourite were all of the party invitations he had to send out (especially when I received an invite too). You have also been working really hard on the Maths activities and I have

enjoyed seeing your workings – just remember to read each question carefully so that you do not make silly mistakes.

Try not to miss out on the fun activities too! For next week, I am going to keep the 'Make a Pirate Ship' and 'Build a Masterpiece' to give some of you more time to complete these because the ones I have seen are INCREDIBLE!

A note for parents / carers: You may have noticed that White Rose Maths no longer publishes the worksheets on their website for you to print so you only have access to them on Seesaw. If you would still prefer to print these out, please send me an email and I will aim to send you the PDF documents on ParentMail each week. Keep learning well at home. Stay safe and take care, from Mr Loynds and Miss Hart
sloynds@trawden.lancs.sch.uk

Please can all the children who are sent paper packs for home learning remember to take photos of their work and activities and upload them to Seesaw or send them via email for the teacher to look at and comment on.

Hello Year three,

Well done for another fantastic week of home learning, we now have over 1000 posts that have been added to Seesaw! I think in less than 4 weeks that is amazing, so give yourself a pat on the back for working so hard.

This week we have finally finished with fractions and you have been showing me how well you understood them by completing the problem solving questions. The questions this week were particularly tricky but thank you for having a go and trying your best.

In English, we have been looking at poems, fiction and non-fiction texts all about crocodiles. You produced some excellent fact files on Monday which were written in first person from the point of view of the crocodile.

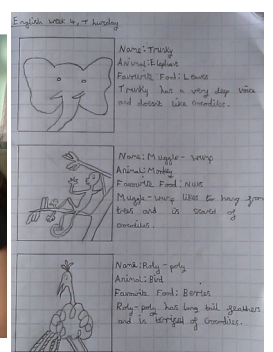

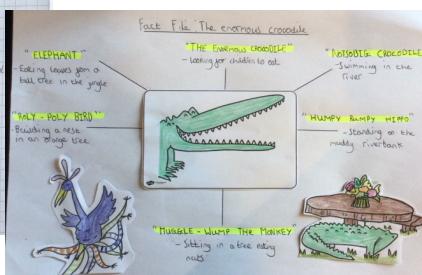

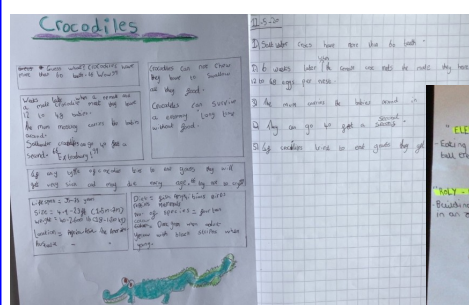

Again I have been blown away by your attention to detail and the effort you have put into not only your written work in English, but your illustrations too. You're all much better artists than me, I'm very jealous.

Science this week, I asked you to pick some leaves on your daily walk, place the stem in food colouring and observe any changes. Your predictions were very interesting and I'm looking forward to seeing how your leaves turn out.

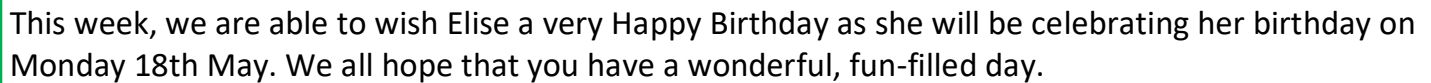

I hope you all have a lovely weekend, stay safe and keep helping your parents as much as you can.

Miss Lambert and Miss Whittam

Year 3

Welcome to another edition of our school newsletter. We hope that you are all still well and are managing to get outside to enjoy the fresh air with your parents a little bit more. Thank you for continuing to work hard and we hope that you have been showing kindness this week. Mrs Whittaker and I have seen some lovely ideas that you have thought of to demonstrate kindness in your 'Sprinkle Kindness' activity. We have also enjoyed the nature art that you have posted. You know that good manners are important as well as being kind around the house and being respectful.

The Daily Chronicle

A Yeti has kidnapped a little girl named Lady Agatha who was sleeping calmly in a warm, cosy, little tent on a ledge under the summit of a mountain known as Navi Dar. Her father the Earl of Farley slept in another tent close by her and in another tent slept three Himalayan porters who carried there baggage . The Earl had travelled to the roof of the world searching for rare and unknown plants. He adored his daughter Agatha so much he took her with him. Just after midnight on the atrocious night, Lady Agatha was awoken with a eerie and mournful noise. And then it happened. Out of the darkness and snow, a ghastly, gigantic, hairy THING appeared. Before she knew it, a pair of huge brown arms grasped the girl and swiftly vanished up the mountain out of sight .

The Earl and his porters searched for days, risking death in the cruel weather conditions but it was useless. The fresh snow had hidden all the possible tracks . So he said that his daughter might have lost her memory and wandered off and that the yeti had probably carried her away screaming . THE VILE CRITTER EATS HUMANS. But a porter said that yeti's are vegetarian. One of the other porters said, "They must have run over the mountain of Navi Dar."

The Earl thought the creature was so fearsome and scary he calls him the ABOMINABLE SNOWMAN.

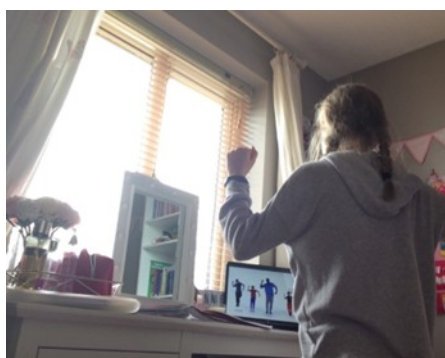

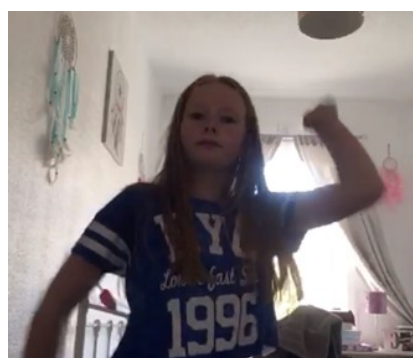

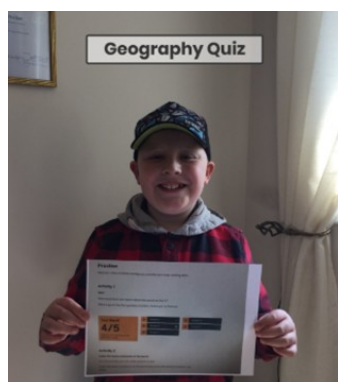

Hello Year Five!

Well, what a week it's been! It has gone very quickly, maybe it has done for you too after all of the hard work you have been completing! As I write this, we have 1194 items within our journal. Thank you to all of you for placing your work onto Seesaw, whether you are working on paper at home or using Seesaw alone, it is so great to still see you all. I hope you enjoy looking at the pictures of just some of the work from this week, I have really enjoyed 'Hide and Seek', 'Personify it!' and the 'Monday Movement' work this week as well as learning about 'potato chips' and fractions (maybe at the same time so that we can share the potato chips?) I've not included the wonderful words and pictures you put together for International Nurses Day, however I do want to mention them as they were so touching at this time. Thank you to all of you parents and carers who are supporting your children at home, perhaps picking up the paper packs from the shed at school or adapting to the change with the White Rose maths work. If you need help, do contact me via email ldixon@trawden.lancs.sch.uk

Last but not least, it is Maisie's birthday on the 22nd May, so I wanted to wish you a very happy birthday. I hope you have a fantastic day with your family.

Keep going everyone!

From Mrs Dixon and Mrs Stansfield
ldixon@trawden.lancs.sch.uk

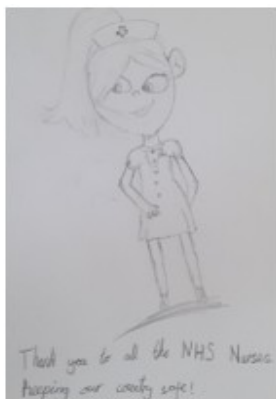

Year 6

Thank you Year 6 for all your impressive posts this week. You have all worked incredibly hard and have asked for help when you have been unsure too. This week, we remembered the birthday of Florence Nightingale and the difference nurses and NHS workers are making to the lives of so many poorly people. The 'Thank you' messages you created for the heroic NHS staff were especially moving, I tried to include as many as I could. You have shown that you are thinking of others at this time, which is a positive thing to do! And that's one of the reasons that I am proud to be your teacher! I hope some of you will print out your pictures and Thank yous and put them in your window to cheer people up as they walk past your house. Today is 'Fun Friday' and you have had the opportunity to do something different: dance, drama and model making to name just a few. Mrs Bottomley, Miss Gallagher and myself are extremely impressed by the robot models, sketches and dance moves, not to mention a real life Darth Vader and R2D2! You never stop impressing us with your creative, imaginative minds and I am impressed with you all.

Take care and keep smiling! Keep safe Year 6,
from Mrs Clark, Mrs Bottomley and Miss Gallagher
cclark@trawden.lancs.sch.uk

**thank you
NHS YOU DO
A GREAT JOB**
