

Tregoze EYFS Policy 2022

Key Document Details

School Name: Tregoze Primary School1

Version no:

Author: A Ball

Owner: Principal

Approved by: H Tudor

Ratified date: 15/9/22

Interim review date: July 2023

Next review date: July 2024

Aims (our intent)

It is our intent that children who enter our EYFS begin their lifelong learning journey by making progress physically, verbally, cognitively and emotionally in all areas of learning from their individual starting points whilst developing a love of learning. At Tregoze Primary School our aim is to create high quality learning environments that support, enhance and invite every child's curiosity, confidence and development. To work collaboratively with parents and carers to encourage independent and enthusiastic learners who thrive and reach their full potential. Every child has access to a broad, balanced and differentiated curriculum that reflects our community which prepares them for now and for the future as Global Citizens. Through a language rich environment all children are supported and given opportunities to become skillful communicators who connect with others through language and play so that all children achieve an 'expected' standard at the end of the EYFS.

Play and Active learning

PLAY: At Tregoze Primary School, we understand that children learn best when they are absorbed, interested and active. We understand that active learning involves other children, adults, objects, ideas, stimuli and events that aim to engage and involve children for sustained periods. We believe that Early Years education should be as practical as possible and therefore, we are proud that our EYFS setting has an underlying ethos of 'Learning through play'. PLAY is essential for children's development across all areas. Play builds on children's confidence as they learn to explore, to relate to others around them and develop relationships, set their own goals and solve problems. Children learn by leading their own play and by taking part in play which can be guided by adults.' EYFS Team

We provide the children with a safe and secure environment. We aim to develop good relationships with all children interacting positively with them and taking time to listen. We also model and support children in forming positive relationships and friendships with one another, learning about self-control and the need to follow rules. It is the role of all adults within the environments to engage in high quality interactions with all children and scaffold children's learning in order to make progress.

At Tregoze we recognise the learning environment plays a key role in supporting and extending the children's development. The reception classrooms incorporate the indoor and outdoor areas and are well organised to allow children to explore and learn securely and safely. There are areas where the children can be active and can be quiet.

The environments are set up into learning areas where children are able to find and locate resources and equipment independently. Our learning environments operate a free flow system whereby the children can choose which area of the environment they would like to explore. This is around the adult led activities that take place throughout the day at various times.

Children need to have some independence and control over their learning. As children develop their confidence, they learn to make decisions. It provides children with a sense of satisfaction as they take ownership of their learning. Young children can engage in a wide range of activities that develop their metacognition and self-regulation. Play is the highest form of research (Albert Einstein).

Planning

The planning for the Reception Class allows the children to explore key themes from our Reception Long Term Plan, Tregoze Curriculum Goals for Reception and the schools key themes of a value based curriculum and emphasis on Global Citizenship. The weekly plans take on these themes and are also supported by the observations carried out of the children from the previous week. This enables children's interests, achievements and nextsteps to be addressed. Our curriculum coverage is based upon the Educational Programs outlined in the reformed Early Years Foundation Stage framework.

Skills progression and knowledge of child development informs planning. Staff have a secure knowledge of individual children's starting points and have a clear understanding of how to ensure children reach their full potential at the end of the EYFS.

Assessment and observation

Before children begin reception, the class teacher discusses the 'Moving on document' with the child's key worker in their current setting. Along with this information and discussion, the teachers meet the children in their pre-school setting to gather information to inform their baseline assessment on entry into reception.

Teachers also meet with parents to discuss their child's strengths and to highlight current areas for development. Parent views form a key part of the Baseline document.

From September 2021 all children in reception will undertake the RBA baseline assessment from the DfE. In addition to the RBA baseline, practitioners in reception will carry out an in house baseline assessment to create a secure judgement of all children's starting points.

Each child's level of development is recorded against the seven areas of learning and development using a 'best fit model'. These lead onto the child acquiring the early learning goal in each area at the end of the reception year.

Throughout the year the reception teacher and teaching assistants carry out observations of children and record their observations and photographs in a learning journal. This along pieces of work and creations the children have produced contributes to the child's Learning Journey. Parents have access to their child's online Class Dojo portfolio all year round and are encouraged to add WOW moments, videos and photographs of their child's learning at home.

Although adult led activities can offer insight into children's attainment by making sure the child has the opportunity to demonstrate their knowledge, it is mostly evidence through observing children through their child-initiated time and activities that are used as judgements for the EYFS profile.

The ongoing assessments of the children are collected and recorded into the children's Learning Journeys. Assessments are collated through high quality interactions and observations that our practitioners have with the children. These assessments are then used to create a judgement of 'on track' or 'not on track' for the end of year expectations. These judgements are recorded onto our tracking system on Pupil Asset three times a year. For those children judged as not being on track to meet the end of year expectations, next steps will be planned for based on their gaps in learning. In the final term we write a report to parents. Along with a personal comment, this will state their progress against the Early Learning Goals and the child's Characteristics of Teaching and Learning.

Moderation take place within Tregoze Primary School and across the WHF and schools within the local area.

Working in partnership with Parents/Carers

We recognise that parents/carers are children's first and enduring educators and we value the contribution they make. We appreciate the role that parents have played and their future role in educating the children.

We do this through:

- Talking to parents about their child before they start school.

- The teachers visit all children in their home setting prior to starting school in reception.
- The children have the opportunity to come into school to spend time in the environment and get to know their teacher in June/July before starting school.
- We invite all parents to an induction meeting during the term before they start school.
- Offering parents regular opportunities to discuss their child's progress in the class before and after school sessions or any concerns either the teacher or parent may have.
- All parents have access to Class Dojo. The teaching staff post regular class updates to inform parents about current learning, videos to illustrate how parents can support learning at home and activities parents could use to enhance class learning, skills and knowledge at home.
- All parents may use Class Dojo to message the class teacher to ask questions, ask for appointments or seek clarification at any time.
- We invite all parents to a variety of 'workshops' and stay and play sessions each term, including early reading sessions and early mathematics.
- We have a school liaison officer that we can signpost parent to if additional help/support is required.
