Name _____

What time is it?

Write these times in digital format.

1	2	3	4
10:15	**3:30**	**6:45**	**9:10**

Draw the hands on each clock to match the time.

5 half past twelve

7 ten to six
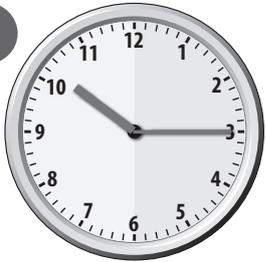

6 quarter past ten

8 five to two

True or false?

9 Tom says there are 30 days in each of these months. ✓ if he is right, ✗ if he is wrong.

March	✗	April	✓	June	✓	October	✗

Shape detective

Write the name of each of these 3D shapes.

10
| I have 6 faces. |
| I have 8 vertices (corners). |
| Each face is a rectangle. |

cuboid (or cube)

12
| I have 5 faces. |
| 4 faces are the same. |
| I face is a square. |

square-based pyramid

11
| I have 3 faces. |
| I can roll along. |
| 2 of my faces are circles. |

cylinder

13
| I have 2 faces. |
| I have 1 vertex (corner). |
| I stand on 1 of my faces. |

cone

14 Explain to a grown-up how to recognise a prism.

A possible answer could be 'It has two identical ends and flat sides. If you slice the shape at any point along its length, the pieces will all be the same.'

_____

_____

_____

_____

_____

Hmm, that's tricky!

I found this:

☺ Easy   🤔 Challenging   🙂 I needed help
