Year 12 Community Service 2023-24

Community Service is about developing yourself & others

In the Twyford Sixth Form we expect you to undertake at least **2 hours of community service** per week.

Community service is about *you as a member of society* and developing your character. It is about giving something back to the school or local community and it develops your soft employability skills. It is an opportunity to move a little outside your comfort zone – for example, to develop your leadership or public speaking skills, or your ability to interact with those younger or older than you – to stretch yourself, but not so much that you won't be able to fulfil your commitment. It needs to be a commitment that you can sustain for the required time period, and ***it is better to pick one or two activities and do them really well than to spread yourself too thinly***: these opportunities involve taking responsibility and developing relationships, and that takes time and regular commitment. Activities include becoming a house captain or form mentor, working as a subject mentor, or assisting with other extracurricular activities at Twyford or outreach work in the local community.

What do we expect from you?

We expect all sixth formers to participate fully in the extracurricular life of the school. We expect all Y12 students to complete **community service** over the year for a minimum of **two hours of each week**.

The vast majority of students will be studying 3 A-levels meaning that you have two hours available per day.

All students should pick just one or two community service activities and commit to doing them really well.

Top employability skills developed through community service

- Verbal and written communication
- Teamwork
- Problem solving skills
- Initiative
- Planning, organising and time management
- Drive/Self-motivation
- Familiarity with technology

Personal statement

Any volunteering related to your chosen university course is worth mentioning in your personal statement for UCAS.

How do you go about getting involved?

Read through the opportunities presented in this booklet carefully. Over the summer, consider which opportunities you are interested in.

Things to consider.

Which ones will fit in best with your chosen subjects?

What will fit well with your outside commitments?

Will any allow you to keep up interests which your A level choices have made you stop academically?

On the first day back in September, you will be formally signing up to your Community Service at the Community Service Fair.

Please bring in your Community Service booklets on your first day of school in September with your completed answers.

Write down four community service activities you are interested in participating in:
