The latest news and initiatives from The Birkenhead Park School...

i-KNOW revision programme

To help prepare Year 11 students for GCSE exams this summer, The Birkenhead Park School has devised a detailed revision programme which all students will take part in. The programme breaks down the revision process to get students to concentrate on setting goals and how to go about revision in the right way. Bronze, silver and gold awards are available to win given the completion of certain tasks, and students can get their hands on a number of prizes, from stationery and hoodies all the way to free tickets for the end of year prom!

NEW! Bronze Duke of Edinburgh Award

Year 9 students can now apply to take part in the Bronze Duke of Edinburgh Award, going the extra mile, learning new skills and having a life-changing adventure.

Students will complete an overnight expedition, take part in volunteering, broaden their skills and take part in physical challenges.

It's a great opportunity for students to have new experiences and develop their leadership skills.

Year 9 students have until 25th January to submit their application to Mr Artell.

Student Ambassadors to be appointed for every year group

All students have been invited to apply for the role of Student Ambassador for their year group, representing the school at events and throughout every day. Reliable and confident candidates are all being considered to be role models for fellow students and meet visitors to the school, and successful student applicants will have a chance to form the Student Council, which will liaise directly with staff about important issues.

Students have until Wednesday 25th January 2023 to submit their application to Mrs Critchlow.

There's always something to do with our extracurricular programme!

From Singing Club to Creative History, and Lego Club to Spelling Bee, there's something for everyone in our Enrichment timetable. Based around the school's values of **Positivity, Ambition, Resilience** and **Thoughtfulness**, all of our clubs are designed to enhance students' confidence and skills, all while having fun! Check the school's website for the full Enrichment timetable.

◀ Looking back...

Year 11 Geography students studied coastal landforms on Hilbre island. Religious Studies students visited Wirral Deen Centre. Chemistry had a trip to the John Moores University labs.

▶ Looking ahead...

There are exciting times coming soon, with Wirral Cup football fixtures announced, along with cross-school library competitions, a special Year 11 session about next steps after GCSEs at Birkenhead Sixth Form College, and much more!
