6th November: Remembrance

13th November: National Anti Bullying Week

20th November: Internet Safety 27th November: Road Safety

Form Focus:

Remembrance

Always a poignant event in the school calendar, The Birkenhead Park School once again invited former 'old boys and girls' of our predecessor schools back to join in a special assembly to mark Remembrance Day.

Governors, students and staff at the school gathered to reflect upon the horrors of conflict and think about the global suffering caused by war.

After the assembly, invited guests joined Headteacher, Helen Johnson, and Senior Prefects in a private ceremony at the honours board in the school reception area. The boards acknowledge and remember former Park High School and Rock Ferry High School students who gave their lives in the Second World War.

Chair of Rock Ferry Old Boys' Association, George Benson, said: "This service means so much to us all as it remembers the actual pupils from here that gave their lives in war. It is absolutely fantastic the way the service is run as it is not the teachers that deliver it, it is the pupils, and there is no better way to learn than getting directly involved. I think the way the school goes about it is really something special and is certainly appreciated by everyone that attends."

Faculty News

Maths

Across all year groups in Maths, students have been taking part in group tasks to develop communication skills allowing them to be independent. Below is what has been happening in each year group.

Year 7

Comparing Interest rates when working with percentages.

Understanding best buys and value for money.

Working in pairs to complete treasure hunts to consolidate knowledge.

Year 9

Looking at social and health issues when dealing with graphs.

Learning how to gather data and working in groups to interpret this data.

Learning about famous Mathematicians such as Pythagoras.

Using maps to understand about scale factor.

Year 8

Developing their knowledge of volume and surface area.

Working out the costs of carpet, paint etc when designing their own house. Solving problems involving capacity. Filling up a swimming pool or a pond.

Quotes from Remembrance service from our students.:

"War is not about goodies and baddies but about people"

"Ernest was resilient, he did not give up, he did not go home"

"Ernest had an amazingly positive attitude"

"He remained ambitious and refused to give up"

"Ernest was a hero, he stood up for his country, his family and his friends."
