

Unity Mathematics department.

Year 10

Your class teachers will set you individual tasks on Hegarty maths. Seneca can also be used for revision. You are doing Edexcel.

You have got 10 units to complete this $\frac{1}{2}$ term for key to grade 5 topics. The $\frac{1}{2}$ is 5 weeks so I would recommend 2 per week and 2 starters from the starter selection. This is to be done over the course of 4 hours.

If you need help email maths@unity.fcat.org.uk
