

FRIEDENSREICH HUNDERTWASSER

Hundertwasser was an Austrian born visual artist, architect, and environmentalist who developed a unique style of art. His pictures often appeared to be very childlike, but when looked at closely, they were very intricate designs full of shapes, patterns and bright colours. He often included simplified buildings in his work with many windows of different shapes.

TASK

Design a town of buildings inspired by the work of Hundertwasser.

The buildings should be shaded in with pencil, biro or black pen.

The sky should be filled with bright, colourful Hundertwasser style patterns and swirls.

Here are some examples to help you:
