

**Place value:**

Here are some different numbers. Use some paper and try to show the numbers in different ways.

Maybe you could show them in tallies, spots, dinosaurs and more!

**RM Easimaths**  
30 mins x 5

**Lexia - 30 mins x 5**

Over the course of the week try to write a story, make sure you think about your lenses.

Look at the picture below and write a story using the picture as a prompt.

- What will happen at the start, middle and end?
- What problem may arise?
- How will you solve it?

**Project:**

Design your own animal, think about:

- How many legs will it have?
- Will it have antenna?
- How many eyes will it have?
- What category of animal will it be in? Reptile? Mammal? Amphibian?
- Have you made sure your animal meets that criteria?

**EG:** if your animal is a mammal does it have fur/hair? Does it have live young?

Research the first ever plane and the planes we have now.

- What are the **differences** between the first plane and the newest one?
- What are the **similarities** between the first plane and the newest one?

Make a list of similarities and differences of the first plane and the latest plane.

Make sure you email us a photo of your research - we would love to see!

Flags games  
Guess the country in the UK game

Can you find out interesting facts about Wales?

What is Wales famous for?

Can you make a poster all about Wales, what interesting information might you include?

What would you want to know about Wales?
