

Activity sheet – Where does food come from?

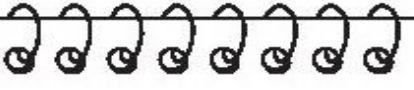

Where would you buy?

Food can be bought from lots of different places, such as markets, shops and supermarkets. Some shops only sell certain foods, like a butchers or greengrocers. Some people grow vegetables in their own gardens or go fishing to catch fish to eat. We can also buy food already cooked from cafes and restaurants.

☞ For each food below, find out where it comes from and where you can buy it. Remember, you can buy some foods in lots of different places. Give one example for each. Use the word bank to help you.

Carrots
Where do they grow?
Where can you buy carrots?
