

How to access the Arbor App

The homepage icon will allow you to access the student profile and see information about your child's statistics such as attendance, attainment and any other information displayed by your school.

Notices will inform you of what consents you have provided and will prompt you for any missing information.

Click the profile icon at the bottom right of your screen to toggle between multiple students you may have within the school.

Click **Switch student**. Choose which child you would like to view.

If this is the first time you are viewing this, you will have to confirm their birth date.

Click on the menu icon to see more detailed information about each item (the tiles which appear depend on what your school has chosen to display)
