

How do **brilliant** mathematicians make deductions about multiplication?
· recall and use multiplication and division facts for 2, 5 and 10 and make deductions outside known multiplication facts

1

Use this fact to help you solve the missing number

$$10 \times 2 = 20$$

$$11 \times 2 =$$

I know this because _____

2

Use this fact to help you solve the missing number

$$20 \times 2 = 40$$

$$19 \times 2 =$$

I know this because _____

3

Use this fact to help you solve the missing number

$$100 \times 2 = 200$$

$$99 \times 2 =$$

I know this because _____
