- SPLD
- Attention ASD
- Trauma Informed School
- Supervision

Strengths/development

Inclusion, dedicated staff, whole family working, CPD, leadership team support and ethos.

Developing reasonable adjustments into all classrooms, use of visual supports (colourful semantics and now/next) cued articulation, Makaton and 100 day transition.

Use of UDL steering group and zones of regulation spring 2025

The HIVE is a community intervention to meet the needs of pupils within Upton designed and self funded since 2014

The number of pupils with an EHC plan has increased across all school types

- In primary, 3.0% of pupils have an EHC plan and 14.1% have SEN support
- In secondary, 2.7% of pupils have an EHC plan and 12.9% have SEN support
- In state-funded Alternative Provision (AP) schools, 24.2% have an EHC plan and 58.1% have SEN support
- In independent schools, including independent special schools, 5.7% of pupils have an EHC plan and 16.7% have SEN support.

The largest increase in EHC plans was in primary, with an additional 18,900 pupils with plans since 2023.

The number of pupils with an EHC plan in state-funded AP schools has increased, however the percentage of pupils with an EHC plan has decreased from 25.5% to 24.2%. This is driven by larger increases in the number of pupils in state-funded AP schools with SEN support or no SEN.

The percentage of all pupils with an EHC plan who are in mainstream schools (state-funded primary and secondary) has increased from 52.7% to 54.4% in 2024, these trends continue patterns seen since 2018.
