**Dear Parents and Carers,
Have a lovely weekend,
From us all at UPS.**

CURIOSITY CATCH UP SESSIONS

The last catch up session with Katy B from the Curiosity Project is on 8th July at 9am. Katy has such a wealth of knowledge in how we can connect with our children and we hope you might find the time to drop in and have a chat!

CLASSROOM ACTION

This week, we've been...using scratch to create digital music; practising our counting forwards and backwards; visiting our new classrooms; looking at how to take photos and the rules of sharing them; thinking about how we keep our money safe; getting stuck into some 3d art quilling...and load more!

SUPERKIND SCHOOL

As I'm sure you're aware, we have six school values that we work hard to achieve - happy, proud, kind, respectful, responsible and resilient.

We pride ourselves on all of our values, but kindness underpins all of these. This year, we have worked towards gaining an accreditation for our community work and we have achieved the Super Kind award for our school. This has recognised our work within school and within the community for things such as our visits to Urmston Manor, raising money for charities, Grandparents Days and raising awareness of class charities.

We are really proud to be a gold award winner of a Super Kind award. We're even more proud of the kindness that our children show day in and day out. Long may it continue. Big thanks to Mrs Cunningham and Mrs McNutt for putting everything together for the award, and well done to everyone in our school community.

Open Afternoons

We'll be holding some parent open afternoons on the dates below, between 2.45 and 3.15. We'd love you to join us so the children can share what they've been up to.

Y3: Friday 17th July

Y4: Thursday 16th July

Y5: Monday 6th July

Y6: Wednesday 15th July

Next Year's Classes

The children met their new teachers and TAs yesterday and all seemed to be well. We appreciate your understanding, especially in the infants, with the complex logistics involved in trying to get this right! As the letter earlier in the week said, we'll arrange some time for you all to visit your child's

new class and meet their new teachers and TAs early in September, but if you would like to catch up before the summer, please let us know and we're sure something can be arranged!

PARENTING WORKSHOPS

- For parents who have recently migrated to the UK and parents who have little contact with mainstream UK culture even though they may have been here for some time.
- Stand alone workshop (approx. 3 hours) delivered at easily accessible community locations. Refreshments, creche, interpreters and travel costs can be provided.
- Focus on migration and its stressors on families; expectations of parenting in the UK and child protection laws.

ABOUT US

- We believe that a person's culture has a profound impact on their development and the way they cope with situations they encounter in their lives.
- We believe people already have existing skills that are built upon when engaging with our services.
- Our team has many years of experience working with families.

Top Tips for... MANAGING SCREEN TIME

According to the latest stats, people aged between 8 and 17 spend four hours on digital devices during an average day. Obviously, a new year is ideal for fresh starts and renewed efforts – so lots of families are trying to cut down their combined screen time right now, creating more moments to connect with each other and relying less on gadgets to have fun. Our top tips on reducing screen time are for everyone, so you can get your whole family involved in turning over a new leaf this year!

Buy Milk

GET OUT AND ABOUT

If the weather's decent, spend some time in the garden or go for a walk. Even a stroll to the local shop would do: the main thing is getting some fresh air and a break from your screen.

TRY A TIMED TRIAL

When you're taking a screen break to do a different activity or a chore, turn it into a game by setting yourself a timer. Can you complete your task before the alarm goes off?

GO DIGITAL DETOX

Challenge yourself and your family to take time off from screens, finding other things to do. You could start off with half a day, then build up to a full day or even an entire weekend.

LEAD BY EXAMPLE

Let your family see you successfully managing your own screen time. You'll be showing them the way, and it might stop some of those grumbles when you do want to go online.

AGREE TECH-FREE ZONES

Nominate some spots at home where devices aren't allowed. Anywhere your family gathers together, like at the table or in the living room, could become a 'no phone zone'.

HOLD A SCREEN TIME AMNESTY

As a family, agree specific windows when it's OK to use devices. This should help everyone to balance time on phones or gaming with enjoying quality moments together.

BE MINDFUL OF TIME

Stay aware of how long you've been on your device for. Controlling how much time you spend in potentially stressful areas of the internet – like social media platforms – can also boost your wellbeing.

'PARK' PHONES OVERNIGHT

Set up an overnight charging station for everyone's devices – preferably away from bedrooms. That means less temptation for late-night scrolling.

SWITCH ON DND

Research shows that micro-distractions like message alerts and push notifications can chip away at our concentration levels. Put devices on 'do not disturb' until you're less busy.

TAKE A FAMILY TECH BREAK

Set aside certain times when the whole family puts their gadgets away and enjoys an activity together: playing a board game, going for a walk or just having a chat.

SOCIALISE WITHOUT SCREENS

When you're with friends, try not to automatically involve phones, TVs or other tech. Having company can be loads more fun if your attention isn't being split.

WIND DOWN PROPERLY

Try staying off phones, consoles, tablets and so on just before you go to sleep. Reading or just getting comfy in bed for a while can give you a much more restful night.

FRAGILE MINDS: RETHINKING SMARTPHONES AND THE DEVELOPING BRAIN

While watching my children play in the snow last week, I saw my son trying to force a carrot into the frozen head of his snowman, and it struck me, our brains are a lot like that. Have you tried learning a new skill as an adult? It's slow and frustrating, like forcing a vegetable into ice. But children learn with such ease because their brains are like soft, fresh snow. Malleable and ready to form new pathways.

The beauty of the snow gave us all a reason to be present-to sledge, build, and simply appreciate. It was a pull to get outside, to connect with the world around us. Sadly, though, the virtual world is increasingly becoming a stronger temptation than real, active play. When we allow children unrestricted access to the internet, social media, or inappropriate games, we risk shaping their neural pathways in ways that can become fixed. The instant gratification of scrolling through endless videos conditions their brains to prioritise quick rewards over deeper engagement. Modern childhood is losing the time and space for imagination and exploration, replaced by screens that steal their focus and limit their potential. By setting boundaries now, we allow their minds to grow in ways that foster creativity, resilience, and meaningful connections. Just as snowflakes are unique, so too are our children's developing minds. We aren't powerless in this journey. By making thoughtful choices and sticking together, we can help shape a future where our children thrive.

Online relationship support for parents

Parents in this area can now access **THREE ONLINE COURSES** from the relationship experts at OnePlusOne. Learn to cope with stress and communicate better, wherever you are in your parenting journey.

FOR
ALL
PARENTS

Arguing better

Disagreements are a normal part of life. How you approach them can make all the difference to you, your partner, and your children. You will learn:

- How to recognise stress and how it can affect you.
- How to support each other through difficult times.
- What causes arguments and how to stop them.

FOR
NEW
PARENTS

Me, You and Baby Too

Learn how to navigate the changes that happen in a relationship when a baby arrives, including:

- How you and your partner can support each other.
- How to talk to bring up difficult topics.
- How arguments start, and how to stop them.

FOR
SEPARATING
PARENTS

Getting it right for children

When parents are separating or separated, children can often get caught in the middle. Learn how to manage conflict to minimise the impact it has on your children, as well as:

- How to stop a discussion from turning into an argument.
- How to stay calm and listen as well as talk.
- Skills for finding solutions and making compromises.

To access the courses, you will need a smartphone, tablet, or computer, and a good internet connection. They are all **FREE** to use, so you'll just need to select your local authority area and create an account with a username and password.

You can get started by scanning the QR code or visiting:
