

Overview

Whilst statutory restrictions are being lifted by the government in Step 4 of their roadmap relating to COVID 19, it is recommended best practice to maintain practical health, safety & hygiene control measures for an extended period of time due to the existing risk and rise of covid cases across the City and surrounding area, predominantly caused by close contact between individuals. This document is a template that can be used to help School Leaders to develop a task-based risk assessment in relation to COVID-19 after STEP 4 of the government's road map.

Below is a list of recommended control measures which can be used in the development of the task-based risk assessment or deleted if not applicable. These are not explicit requirements that need to be implemented for each work activity but should be used as guidance and good practice. The task-based assessment should be completed by School Leaders and should include the specific control measures to ensure the health, safety and welfare of employees and others affected by work activities.

School Leaders are responsible for monitoring the advice and guidance available on the HUB ensuring Risk Assessments and Safe Working Practices are updated where applicable and cascade through to employees. Employees should receive a copy and an overview of the risk assessments specific to their work activities. This will enable employees to ask relevant questions, raise any concerns and will help managers be able to demonstrate the employees understanding of the risk assessment. Additional information on roles and responsibilities are included in the [Education & Childcare Covid-19 Code of Practice](#) available on the hub

Help and Support is available with the development of your risk assessment through the HROD-Safety@sunderland.gov.uk

Risk Assessment

Work Activity/ Hazard:	Schools & EYFS C-19 Operational Risk Assessment STEP 4 (v.1)	Directorate	Children's Services: Together for Children	Section:	<ul style="list-style-type: none"> Education & Childcare settings: Schools
