

# Usworth Colliery Primary School – Maths Aspirations

## To be a Mathematician, I...

am confident and interested in using numbers.	can spot patterns in numbers.	can make links between the concepts I am learning and have learned before.	can solve problems, showing resilience to be wrong and try again.	can choose the most efficient mathematical method from the range of strategies I have been taught.	can explain my thinking and understanding clearly.
---	-------------------------------	--	---	--	--

I can use numbers to count, calculate and solve problems.

I can spot patterns in numbers.

I explain what I am doing using the correct terminology.

I can make links between the things I have learned.

I don't give up when I'm solving tricky problems.

I can work things out in lots of ways and choose the most efficient method.
