## USWORTH COLLIERY GIRL'S FOOTBALL

On Tuesday evening, the girls' team played their first set of home matches, welcoming St. Bedes, Biddick, and Wessington to our school. Despite the cold, all teams enjoyed a fantastic evening of football. Our first match was against St. Bedes, who proved to be tough opponents. They opened the scoring with a clever strike, but we didn't back down. The girls worked together, creating strong attacking plays, which eventually paid off with a well-timed goal from our captain, Jessie-May. The game ended in a 1-1 draw. In the second match, we faced Wessington. After a tactical team talk, the girls came out strong and maintained their energy throughout the game. Our midfield and defense worked tirelessly to stop Wessington's attacks, allowing Jade to score two powerful goals and secure a 2-0 win. Finally, we played a friendly match against Biddick, where the girls had fun experimenting with different positions on the field. The evening ended with compliments from the teachers at St. Bedes, who praised the excellent sportsmanship and passion for football shown by the Colliery team. Well done, girls! **Mrs Skeen**

## WHATSAPP

This term we have had a number of incidents of children reporting inappropriate or unkind messages being shared through WhatsApp groups. Although all these incidents have been outside of school the effects are being seen within the school. WhatsApp has an age restriction of 13+ to protect young people from online aggression and inappropriate messaging. In school, we educate all our children around online safety in the hope that they make good choices outside of school. If you do allow your child to use WhatsApp, please be vigilant with their use of it. I have attached an information sheet to the bottom of the newsletter all about WhatsApp. If you would like any more support around online safety, we currently have a set of guides from NationalOnlineSafety.com on our website. Just follow the link below.

**Jack 6CS** came to show me his wonderful artwork completed at home. He captured the iridescence of the beetle beautifully using oil pastels. Well done, Jack!

# What Parents & Educators Need to Know about WHATSAPP

WhatsApp is a free messaging service owned by Meta which allows users to send text and voice messages, make video calls, share multimedia – such as images, videos, documents and polls – and have group chats. WhatsApp messages are encrypted, meaning only you and the recipient can view what is sent. While this privacy may sound attractive on paper, this app unfortunately comes with several risks that must be considered – especially for younger users.

**AGE RESTRICTION 13+**

### WHAT ARE THE RISKS?

#### EVOLVING SCAMS

WhatsApp's popularity makes it a lucrative hunting ground for scammers. Recent examples include posing as the target's child, requesting a money transfer because of a spurious 'emergency' and even cases where fraudsters trigger a verification message by attempting to log in to your account. These goads on WhatsApp, call or text to ask you to repeat the code back to them, giving them access to your private messages and personal information.

#### CHAT LOCK

Another new feature called 'Chat Lock' allows users to store certain messages or chats in a separate 'locked chats' folder, saved behind a passcode, fingerprint or face ID authentication. While this security feature is an intended, it can potentially be exploited by younger users to hide conversations and content that they suspect their parents wouldn't approve of – such as the sharing of age-inappropriate material.

#### DISAPPEARING MESSAGES

Disappearing messages are useful for sharing personal or sensitive information, but young people may have a false sense of privacy regarding the content they share. These messages disappear after anywhere from 24 hours to 90 days – depending on the user's preference – or can even be set to be viewed one time only. However, the recipient can 'save' the message by bookmarking or screenshotting it, making them not as private as they may first appear.

#### VISIBLE LOCATION

WhatsApp's 'live location' feature lets users share their current whereabouts, which can be useful for friends heading up or parents checking that their child's safety on the way home, for example. However, children are able to share their location with anyone in their contacts list or a mutual group – potentially letting strangers identify their live location.

#### CHANNELS

Channels let users follow interests without sharing their phone numbers or sending direct messages, allowing only votes on polls and reacting to posts with emojis. However, fraudulent channels can impersonate legitimate organisations, tricking people into sharing personal data and even spreading misinformation or hate speech. Additionally, WhatsApp may collect details about followed channels and sell this information to third parties, raising data privacy concerns.

#### FAKE NEWS

WhatsApp's connectivity and ease of use allows news to be shared rapidly – whether it's true or not. To combat the spread of misinformation, Instagram forwarded more than five times as the app was designed to 'forward, story links', labels and a double arrow icon. This makes users aware that the message they've just received is far from original – and might not be entirely factual, either.

### Advice for Parents & Educators

#### EMPHASISE CAUTION

Encourage children to treat unsolicited messages with caution, but then to consider, for example, whether it sounds like something a friend or relative would really send them. Make sure they know never to share personal details on WhatsApp, and to be wary of clicking on any links in messages. Setting up two-step verification adds a further layer of protection to their WhatsApp account.

#### THINK BEFORE SHARING

Help children to determine why it's important to stop and think before posting or forwarding something on WhatsApp. It's easy – and all too common – for content to be shared more widely, and even publicly on social media, encourage them to consider how an ill-judged message might damage their reputation or upset a friend who sent something to them in confidence. Real-life friendships can be more important than likes, after all.

#### ADJUST THE SETTINGS

It's wise to change a child's WhatsApp settings to specify which of their contacts can add them to group chats without needing approval. To do this, go to Privacy, then Groups. You can give permission to My contacts or My Contacts Except... Additionally, if the child needs to use Live Location, emphasise that they should enable this function for only as long as they need – and then turn it off.

#### CHAT ABOUT PRIVACY

Have a conversation with youngsters about how they're using WhatsApp, emphasising that it's for their own safety. If you spot a locked chats folder, you might want to talk about the sort of messages that are in there, who they're sent and why a child might want to hide them. Also, if a young user has sent any 'Vanish' content, discuss their reasons for using this feature.

#### Meet Our Expert

Dr Claire Sutcliffe is an online safety consultant, educator and researcher who has developed and implemented anti-bullying and cyber safety policies for schools. She has written various academic papers and carried out research for the Australian Government comparing internet use and online behaviour of young people in the UK, USA and Australia.
