

Valley College

Valley College– Admission Policy

Learners who will benefit from the Valley College offer will:

- Be aged 18+
- Have (or will have had) a current Education Health Care Plan funded at Band E or above;
- Have special educational needs and disabilities (SEND) falling in the range of **severe learning difficulties** or more **moderate learning difficulties** with additional needs that cannot be met in a local college

Unfortunately, due to the nature of this alternative provision, it will **not** be possible to meet the needs of learners with the following daily requirements:

- Provision of a positioning timetable;
- Access to a largely sensory curriculum;
- Complex medical or behaviour needs.

However, it is hoped that the scope of Valley College provision can be widened and good practice can be shared with other local providers to enhance local college provision in Lancashire.

If you require further information on the suitability of this course for an individual learner please contact us, email: valleycollege@theviewtrust.org or call: 01706 214640 (Ewood Campus). Learner placements will be negotiated between Valley College and the LA Transitions Team.
