Home Learning

Day 3

Reading	Read aloud to your adult for 20 minutes daily. You can read a book from home or log into Bug Club to read the books online. If you use Bug Club, don't forget to click on the little bugs to answer the questions about the text.
English	Read the 'Broomstick lesson' file and follow the instructions to complete the activities that go with the text.
Maths	Complete the '3 digit numbers' activities (see separate file) all about place value in 3 digit numbers.
Science	Plants In the autumn, some trees lose their leaves but other stay green. Find out the scientific names for these 2 different types of trees and why some leaves stay green all year round. Challenge: List some names of those trees who lose their leaves and those that remain green all year.
Spelling and grammar	Read the 'Conjunctions' file (see separate file) all about conjunctions and clauses. Some of this might be a bit tricky but have a go at all of the activities you can do.
IPC – Island Life	Find out the distance from our island here in the UK to any of the islands we have studied in class (e.g. Alderney, Madagascar, Caribbean islands, Manatoulin, Tioman). What would be the best mode of transport to get there? How long would take you? Draw your route on the world map (see separate file).
