Monday

Maths—using written methods for adding 3 digit numbers

Group A

Solve these questions using column method. The first one is done for you.

876 + 572

```
      8   7   6
  +   5   7   2
  1   4   4   8
      1
```

738 + 427

886 + 485

945 + 478

846 + 354

675 + 486

Challenge — can you reach the target?

Hint: Which place value will you look at to help you decide which numbers to pick?

Use column addition to show your working out.

Choose two from these numbers:

283   521   349   378   452   217   146   354

Try to make these target numbers:

500   **600**   **700**   **800**

Super!

Challenge

Which three numbers give a total closest to 1000?
