

Tuesday

Using mental methods for subtraction

Group A

The IXL Sections for today are  
F and H

Use what you know about place value to work out these answers

$$498 - 50 =$$

$$675 - 10 =$$

$$433 - 40 =$$

$$412 - 300 =$$

$$726 - 20 =$$

Work out the answers to these questions:

$$702 - 5 =$$

$$201 - 7 =$$

$$103 - 4 =$$

$$505 - 9 =$$

$$803 - 5 =$$

$$405 - 7 =$$

$$202 - 8 =$$

$$304 - 6 =$$

Ruby wants to work out the answer for  $328 - 99$ . She starts by taking away 100. How will this help her?

---

---

Challenge

Calculate the answer to the following:

17)  $122 - 6 =$

18)  $279 - \_ = 271$

19)  $\_\_\_ - 7 = 329$

EXTRA

**Challenge**

Explain how you would use  
 $14 - 8 = 6$  to calculate  $384 - 8$ .
