

Complete the number track.

How many marshmallows are on the 7 cakes?

Write the multiplication calculation:

How much money is shown here in total?

Write the multiplication calculation:

Alice has 50p. How many 5ps is that?
Use the calculation to help.

$50p = \underline{\hspace{2cm}} \times 5p$

Use $<$, $>$ or $=$ to make the statements correct.

$2 \times 5 \quad \bigcirc \quad 5 \times 2$

$3 \times 2 \quad \bigcirc \quad 4 \times 5$

$10 \times 5 \quad \bigcirc \quad 5 \times 5$

Write $<$, $>$ or $=$ to compare the calculations.

$7 \times 5 \quad \bigcirc \quad 5 \times 8$

$6 \times 5 \quad \bigcirc \quad 4 \times 5 + 2 \times 5$

$2 \times 5 \quad \bigcirc \quad 3 \times 5 - 1 \times 5$

$12 \times 2 \quad \bigcirc \quad 2 \times 12$

Make an array to show 7×5

Find three different ways to write it.

Use counters to help you.

$$\square \times \square + \square \times \square$$

$$\square \times \square + \square \times \square$$

$$\square \times \square + \square \times \square$$

Can you use a 9×2 array to complete this?

$$\square \times \square + \square \times \square + \square \times \square$$

A sandwich costs £2 and a box of crayons costs £5

Jack buys 5 sandwiches and 3 boxes of crayons.
How much does he spend in total?

Jack spends £

Make these comparisons true

$$8 \times 5 < \square \times \square + \square \times \square$$

$$\square \times \square + \square \times \square = 12 \times 5$$

$$5 \times 5 > \square \times \square + \square \times \square$$

Tommy and Rosie have both drawn bar models to show 7×5

What's the same and what is different about their bar models?

Draw your own bar model to represent 4×5
